**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Be careful if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes, clothing. In case of contact immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not apply when weather conditions favor drift to a large area treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of sprayer or other equipment.

REENTRY STATEMENT

Do not apply this product to such a degree as to drift by or through a fence, wall, or other barrier. The area being treated must be protected by a suitable barrier.

Do not enter treated areas until the spray has dried. Do not allow children or pets to enter treated areas until the spray has dried.

Written or oral reports of acute or chronic toxicity are expected to be available on this product. Also see label for treatment with this product. In the event that you have a child, infant, or other person who has entered with or without permission, the period of time for which you should avoid contact with the treated area in case of accidental exposure is: when oral washings are necessary, shall be given in a language readily understood by the child, infant, or other person; when eye washings are necessary, shall be given in a language readily understood by the child, infant, or other person; when skin washings are necessary, shall be given in a language readily understood by the child, infant, or other person. For more information, see the Material Safety Data Sheet (MSDS) on the label. Do not apply this product to a large area treated with an appropriate drift-free mixture until the spray has dried.

MIXING DIRECTIONS

If there is any free oil on the surface, do not use this product. Measure out the proper amount of concentrate and add it to the spray tank when the water is at the height of the agitator and the agitator should be in motion. If a sprayer is being used, add this concentrate to the tank before you start spraying.

We offer an excellent product for the price per gallon. Good spraying technique is needed to get the most out of this product. Other manufacturers' and brands' good insecticides, fungicides, and herbicides should be sprayed only under favorable conditions and when their mode of action is suitable.

DO NOT SPRAY THESE WITHOUT SUFFICIENT WEAVING

DO NOT USE THIS MATERIAL IF IT DOES NOT BUBBLE

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Store in original container. Do not use if container is damaged. Keep in original container until ready to use. Do not use if container is damaged. Do not use if container is damaged. Do not use if container is damaged.

PESTICIDE DISPOSAL: Pesticide should be disposed of according to the label. Do not use if container is damaged. Do not use if container is damaged. Do not use if container is damaged.

CONTAINER DISPOSAL: Containers should be disposed of according to the label. Do not use if container is damaged. Do not use if container is damaged. Do not use if container is damaged.

DORMANT EMULSION

ACTIVE INGREDIENT	By Weight
Petroleum Oil	80.00%
INERT INGREDIENTS	20.00%
TOTAL	100.00%

Classification - Dormant Heavy Unsulfonated Residue - 70% Minimum

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

HARMFUL IF SWALLOWED DO NOT SWALLOW OR INHALE

See Additional precautions on side panel
PRACTICAL TREATMENT (First Aid)

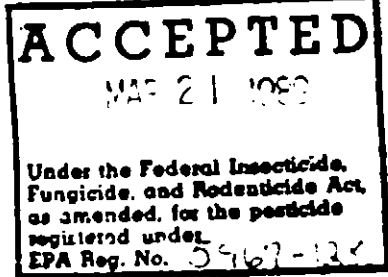

IF SWALLOWED: DO NOT MAKE PERSON VOMIT. CALL A DOCTOR IMMEDIATELY. Ingestion of this product or subsequent vomiting can result in aspiration of light hydrocarbon liquid which can cause pneumonia. NOTE TO PHYSICIAN: Emergency information - Call Doctor (988) 424-9388. IF ON SALT: Rinse off material and wash skin with soap and water. Get medical attention if irritation persists.

IF IN EYES: Wash with plenty of water for at least 15 minutes. Get medical attention.

IF INHALED: Remove to fresh air. IF NOT BREATHING, give artificial respiration preferable mouth to mouth. Get medical attention. Never give anything by mouth to an unconscious person.

NET CONTENTS

GALLONS

THESE RECOMMENDATIONS ARE FOR CALIFORNIA USE ONLY

DOGWOOD APRICOT SCALE, BLACK SCALE: On almonds, apricots, cherries, nectarines, peaches, plums and prunes - Dormant Spray - Use 3-4 gallons to make 100 gallons of diluted spray. If winter rains have replenished soil moisture and bark of trees is noticeably damp, this spray should be applied in December or January.

OLEASTER SCALE, OLIVE SCALE (Parlatoria Scale) and other Scale Insects: On almonds, apricots, cherries, nectarines, peaches, plums and prunes - Dormant Spray - Use 4 gallons per 100 gallons spray.

EGGS OF APRIES, ITALIAN PEACH SCALE, EGGS ON BRN SPINER MITES, SAN JOSE SCALE, GIBBERNA-TING TWIG BORERS: On almonds, apples, apricots, cherries, nectarines, peaches, plums and prunes - Dormant Spray - Use 4-5 gallons to make 100 gallons diluted spray. Apply in December or January when the soil is full of moisture.

LEAFROLLER EGGS: On Apples, Peaches and Prunes: Use 4-5 gallons to make 100 gallons diluted spray. Apply when the buds swell but prior to bud cracking.

MOSS AND LICHENS: On Apples, Almonds, Apricots, Cherries, Nectarines, Peaches, Plums and Prunes - Dormant Spray - Use 3-4 gallons with 15-20 lbs. of Spray lime for each 100 gallons of diluted spray.

Contact the Division of Agricultural Sciences, University of California or the State Extension Service Specialists for additional information.

CONCENTRATE APPLICATION

ALMONDS: Dormant - Brown Apricot Scale, San Jose Scale, Other Scale Insects, Mite Eggs - 4-6 gal. per acre in 40-100 gal. of water as a concentrate spray.

PEACHES: Dormant - Brown Apricot Scale, Other Scales, Mite Eggs - 8-12 gal. per acre in 40-100 gal. of water as a concentrate spray.

PRUNES: Dormant - San Jose Scale, Brown Apricot Scale, Other Scale Insects, Pear Pearls Eggs - 12-15 gal. per acre in 40-100 gal. of water as a concentrate spray. Colored Dormant - Same insects as above plus Mite Eggs - 8-12 gal. per acre in 40-100 gal. of water as a concentrate spray.

PLUMS: Dormant - Parlatoria (Olive) Scale, San Jose Scale, Brown Apricot Scale, Mite Eggs - 4-6 gal. per acre in 40-100 gal. of water as a concentrate spray.

AIR APPLICATION

FOR CROPS AND INSECT PESTS LISTED ABOVE: Air application - Use same range of product acreage per acre for each crop listed. Apply in sufficient water to make 15-25 gal. dilute spray per acre. Air application is recommended as an emergency measure only when soil conditions do not permit application with ground equipment.

NOTE: Since spray pattern, particle size, speed of travel, accurate calibration, air volume, and wind conditions are critical as to degree of control and risk of phytotoxicity, it is important the user rely on local experience as well as apply available knowledge to the timing, adjustment, speed of travel and calibration when using concentrate sprays in his orchard.

CONDITIONS OF SALE

1. Moyer warrants that this product consists of the ingredients specified and is reasonably fit for the purposes stated on this label when used in accordance with the directions under normal conditions of use. No one other than an officer of Moyer is authorized to make such authorization must be in writing to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond Moyer's control, Moyer's liability is limited to replacement of product, or refund of purchase price, in no event shall Moyer be liable for indirect or consequential damages.
