**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMAN AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors of spray mist. Avoid contact with skin, eyes and clothing.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered during the treatment, or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until they are dry.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD-HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

Applications may be made within food-handling establishments. This includes, but is not limited to, restaurants, grocery stores, bakeries, bottling plants, canneries, and grain mills.

Sites for non-food use in homes, motels, such as: Spray into cracks and crevices around baseboards and other places. Apply behind and beneath cabinets, refrigerators, sinks, stoves and in the waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting because of possible hazard. Call a physician immediately.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Call a physician if effects occur.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Wrap container and put in trash collection. Do not puncture or incinerate. Do not re-use the empty container.

PHYSICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

GENERAL

Use this contact & residual spray as a Hornet & Wasp Spray or as a Crack and Crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a crack and crevice treatment to localized areas where pests are found or may occur.

In food-handling establishments, use only as a spot treatment. Spot treatment may encompass crack and crevice treatments by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases, or which occur at points between different elements of construction, or between equipment and floors. Equipment capable of delivering a pinstream of spray should be used. Repeat treatment as necessary, but not more than every 7 days in restaurants and similar food service establishments, or more than once every 14 days in other types of food-handling establishments.

CONTROL OF CRAWLING INSECTS:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas, Earwigs and Carpet Beetles: Apply spray directly into cracks and crevices. Insert attached extension tube into actuator to enable you to deliver a pin stream in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above insects hide.

CONTROL OF WASPS AND HORNETS:

It is preferable to apply this after dark when all the insects have returned to the nest. Insert attached extension tube into actuator to enable you to deliver a pin stream. Aim extension tube at the nest and depress actuator, continuing to spray until the nest is all covered with the Insecticide foam. The insects will now not be able to leave the nest so insert the extension into the nest and fill the nest with the Insecticide foam.

EPA Reg. No. 5978-13
