Subject : Amended Label And CSF For:
KONK Insecticide Foam
EPA Registration No. 5978-13
Letter dated February 19, 2004

Dear Mr. Horne:

The proposed amendment to the registration of the product cited above under the Federal Insecticide, Fungicide And Rodenticide Act as amended is acceptable subject to the comment listed below:

Since the product contains petroleum distillates, the First Aid statement for If Swallowed must be changed to read:

"If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person."

A stamped copy of the label is enclosed for your records. Submit two copies of the final label before this product is released for shipment under this revised label.

The Confidential Statement Of Formula dated July 7, 2003 is acceptable and has been made a part of the file for this product.

If you have any questions, please contact Joseph Tavano at (703) 305-6411.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joseph M. Tavano".

Richard Gebken
Acting Product Manager 10
Insecticide Branch
Registration Division(7505C)

A small, stylized handwritten mark or signature, possibly initials, located below the typed name.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labelling. Do not apply directly to food. In the home, all food processing surfaces and utensils should be covered during the treatment, or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until they are dry.

GENERAL:

Use this contact & residual spray as a Hornet & Wasp Spray or as a Crack and Crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a crack and crevice treatment to localized areas where pests are found or may occur. Non-food areas of commercial food handling establishments and similar commercial buildings where the product can be applied are areas such as garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, garages, map closets and storage (after canning and bottling). Sites for non-food use in homes, motels, etc.: Spray into cracks and crevices around baseboards and other places. Apply behind and beneath cabinets, refrigerators, sinks, stoves and in the waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises.

CONTROL OF WASPS AND HORNETS:

It is preferable to apply this after dark when all the insects have returned to the nest. Shake container before spraying. Insert attached extension tube into actuator to enable you to deliver a pin stream. Aim extension tube at the nest and depress actuator, continuing to spray until the nest is all covered with the Insecticide foam. The insects will now not be able to leave the nest so insert the extension into the nest and fill the nest with the Insecticide foam.

CONTROL OF CRAWLING INSECTS:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas, Earwigs and Carpet Beetles: Shake container before spraying. Apply spray directly into cracks and crevices. Insert attached extension tube into actuator to enable you to deliver a pin stream in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above insects hide.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area away from heat or open flame. Do not store where children or pets may gain access. Keep from freezing. **DISPOSAL:** Do not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1800-CLEANUP for disposal instructions.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors of spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

If **Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If **Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If **In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call 1-800-222-1222, 24 hours, 7 days a week.

NOTICE TO USER

Sellers guarantee shall be limited to the terms of the label and subject thereto the buyer assumes any risk to persons or property arising out of use of handling and accepts the product on these conditions.
