

6046-1

**SAFE ENOUGH FOR A CHILD TO USE
DIRECTIONS:**

Shake Can Thoroughly

Indoor Use — Remove cap. Hold dispenser upright. Aim spray opening away from person. Press valve to spray. For flying insects, spray in a sweeping circular motion toward upper corners of room for 5-8 seconds, in average room — 1,000 cu. ft. For crawling insects, spray under cup boards, sinks, stoves, refrigerators, washers and into cracks and crevices for 10-15 seconds, or until you see the powder of SAFE. Do not remove powder as it will continue to kill and control insects as long as it remains. Whenever possible, spray directly on insects.

Outdoor and Garden Use — Spray garbage cans, around doorways, garages, storage areas, and completely around foundation of house. The heavier the dosage, the better the control. For use on plants and foliage, spray completely in and around plant, so that entire area is covered. **WILL NOT BURN!** Do not wet plants for at least 24 hours, after spraying, for maximum effectiveness.

Additional Uses — Animal quarters, directly on animals. **KILLS FLEAS AND TICKS.** In or around outdoor eating areas (picnics, Bar-B-Q's, etc.) plus many other uses wherever there are insects. — **BE SAFE, USE SAFE!** If used according to directions, within 24 hours SAFE will have done its job, also leaving you long-lasting residual protection against other invading insects, which will die after contact with the fine particles of SAFE throughout your home.

Active Ingredients — Silica Gel (amorphous)	15%
Inert Ingredients — Propellant	85%
Net Wgt. — 10 Av. Oz.	100%
