

SUPERIOR 304 LIQUID SPRAY

A synthetic pyrethroid for controlling the following household flying and crawling insects: *Houseflies, Mosquitoes, Gnats, Roaches, Apts., Earwigs, Spiders, Grain Insects (Adults of confused flour beetles, Saw Tooth grain beetles, Shiny spider beetles), Grain Mites, Sowbugs and Centipedes*

ACTIVE INGREDIENTS

* Permethrin ([5 (phenylmethyl) 3-furanyl] methyl 2, 2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate	0.250% w/w
Related compounds	0.034%
Aromatic petroleum hydrocarbons	0.331%
Petroleum distillate	99.375%
INERT INGREDIENTS	0.010%
	100.000%

* Cis trans isomers ratio: max. 30% trans isomer, 70% cis isomer.
 * U.S. Patent Nos. 3,465,007 and 3,442,928
 * Brand's SBP 1382(R) brand of permethrin insecticide
 * Frank Corp., 1050 Walnut Street West, Lyndhurst, N.J. 07037

CAUTION KEEP OUT OF REACH OF CHILDREN

NET CONTENTS

PRECAUTIONARY STATEMENTS HAZARDOUS TO HUMANS

CAUTION

Harmful if swallowed. Not absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing mist.

FIRST AID

In case of contact, immediately wash skin and eyes with plenty of water for at least 15 minutes. For skin and eyes, call a physician.

PHYSICAL OR CHEMICAL HAZARDS

Flammable when open flame before space spraying. This formulation is combustible. **DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME**

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE IN HOTELS, MOTELS, HOMES, INSTITUTIONS, PACKAGING AND PROCESSING PLANTS, SEED HOUSES AND HORSE STABLES

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. When using this product in these areas apply only when the facilities are in operation.

SPACE SPRAY: Take down insecticides and grain. Close room or area to be treated. Shut off air conditioning and ventilation system. Seal all open vents. Remove all furniture. Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical and other powered applicators. Avoid staining by holding the spray nozzle at least five feet from objects. Direct the fine spray mist toward the upper corners of the room. Fill the room with a fine mist space spray at the rate of 5 fluid ounces per 5,000 cubic feet. Leave the room closed for 15 minutes. Ventilate thoroughly before reentry. Sweep up and dispose of debris.

CONTACT SPRAYS: To kill crawling bugs, larvae, pupae, grubs, wasps, bees, and centipedes. Adjust spray to produce fine wetting type spray particles. Direct spray to contact these insects in cracks and crevices of floors, baseboards, around pipes, behind cabinets and other furniture. Spray areas until dead areas until thoroughly wet. Repeat as necessary.

TO KILL SPIDERS: Spray directly on their nests or baseboards. Apply directly to the webbing and/or crevices of corners, which harbor spiders.

TO KILL ANTS: Spray directly on ant trails. Use foam spray for trails and nests.

TO KILL GRAIN INSECTS: Adults of light and flour beetles, sawtoothed grain beetles, and spider beetles. Remove infested grain from all flour and other trays. Avoid contamination of other flour and foodstuffs in the area by removing infested material. Spray directly on exposed stacks and into cracks and crevices where grain insects may be hiding. Do not spray directly on stored products. The stacks and drawers should be covered with plastic. Spray for at least 15 minutes. Seal and covered with plastic. Repeat after 24 hours. Store in a cool, dry place. Do not use in areas where children and pets are present. Dispose of contents as instructed.

DISPOSAL

DO NOT REUSE EMPTY CONTAINER. WRAP CONTAINER AND PUT IN TRASH COLLECTION.
