DIRECTIONS

Bathroom:

Use dilution 1:60 in water or 2 oz. per gallon. Wet all surfaces thoroughly.

Public Areas:

Use 1:60 in water or 2 oz. per gallon. Spray freely so as to wet all surfaces thoroughly.

Garbage Receptacles:

To check the development of putrefactive action and to aid in checking the breeding of flies, spray garbage in receptacle with 1:60 solution in water. Repeat treatment with each addition of garbage.

TOILET BOWLS: DIRECTIONS

The use solution should be 2 ounces of product added directly to the residual water in the bowl. When cleaning toilet bowls, all bowl surfaces should be thoroughly swabbed.
