

## USE DIRECTIONS

### FOR CLEANING

Lightly soiled areas — surfaces to be cleaned should be mopped or brushed with a solution containing 1½ ounces of Pine Odor Disinfectant per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas — mop or brush soiled surface with a solution containing 3 ounces of Pine Odor Disinfectant per gallon of water.

Rinse cleaned surface with fresh water.

## USE DIRECTIONS

### FOR DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants and rest rooms mop or brush surface to be treated with a solution containing 1½ ounces of Pine Odor Disinfectant per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of Pine Odor Disinfectant per gallon of water and then disinfected. All treated food contact surfaces and or equipment must be thoroughly scrubbed with detergents, and rinsed with potable water prior to reuse.

To disinfect locker rooms, shower stalls, wall-ways and other areas, mop area with a solution containing 2 ounces per gallon of water.

### HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2 ounces of Pine Odor Disinfectant per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.
