

## USE DIRECTIONS

### FOR CLEANING

Lightly soiled areas – surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of Germicidal Cleaner per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas – mop or brush soiled surface with a solution containing 2 ounces of Germicidal Cleaner per gallon of water. Rinse cleaned surface with fresh water.

### GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1 ounce of Germicidal Cleaner per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of Germicidal Cleaner per gallon of water and then disinfected. All treated food contact surfaces and/or equipment must be thoroughly scrubbed with detergents and rinsed with potable water prior to reuse. To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing 1 ounce of Germicidal Cleaner in 1 gallon of water. This solution will destroy **Trichophyton mentagrophytes**, a causative agent of athlete's foot.

### HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 1 ounce of Germicidal Cleaner per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

Phenol Coeff: *S. aureus* – 15

*S. typhosa* – 9

## DISINFECTANT-CLEANER-SANITIZER-FUNGICIDE-DEODORANT

### ACTIVE INGREDIENTS:

Isopropyl Alcohol .....	10.00%
sodium o-phenylphenate .....	3.95%
sodium 4-chloro-2-cyclopentylphenate .....	3.89%
sodium dodecylbenzene sulfonate .....	2.90%
tetrasodium ethylene diamine tetraacetate .....	0.20%

INERT INGREDIENTS ..... 79.06%

EPA Reg. No. 6125-12

### DANGER

### KEEP OUT OF REACH OF CHILDREN

See First Aid statement and additional precautions on side panel.

Container Disposal: When empty, rinse container thoroughly with water and discard in a safe place.

**DO NOT USE, POUR, SPILL OR STORE NEAR OPEN FLAME.**

### SANITIZATION

To sanitize wall, floors and ceiling in food processing plants, first scrub thoroughly with a solution containing 1 ounce of Germicidal Cleaner per gallon of water. If surface is heavily soiled, use Germicidal Cleaner at a rate of 2 ounces per gallon to insure thorough cleaning. Sanitize surface with a rinse solution containing 1 ounce of Germicidal Cleaner per gallon of water. All treated food contact surfaces and/or equipment must be thoroughly scrubbed with detergents and rinsed with potable water prior to reuse.

### DEODORIZATION

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of Germicidal Cleaner per gallon of water. Germicidal Cleaner is an effective antibacterial cleaner and can be used in household, industrial and institutional cleaning. When used as directed, Germicidal Cleaner will disinfect surfaces, such as floors, walls, ceilings and furniture. It may be used to deodorize bathroom areas, garbage areas, food storage areas, kennel areas and other areas where obnoxious odors are present. This product may be used as a general purpose antibacterial-antifungal cleaner in homes, schools, restaurants, nursing homes, public rooms, food processing plants and in other places for efficient cleaning and antimicrobial action as desired.

See left panel for use directions.

## DANGER

### KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and skin irritation. Do not get in eyes or on clothing. Protect eyes and skin during handling. Harmful if swallowed. Contamination of food.

### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a quantity of milk, egg whites, gelatin or water.
