

[6125-17]

DIRECTIONS

The use of this product in food processing establishments should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Close windows and doors and shut off ventilating systems. Use a fogger or vaporizer adjusted to deliver an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns). Apply at the rate of 1 ounce per 1000 cubic feet of space. Direct the spray toward the ceiling and upper corners of the area and behind obstructions. Keep the area closed for at least 15 minutes. Vacate the treated area and ventilate before reoccupying. Repeat treatment as necessary.

The above described application will kill accessible, exposed stages of flies, fruit flies, mosquitoes, flying moths, gnats, wasps, hornets, and these common stored product pests: Angoumois grain moths, Mediterranean flour moths, Indian meal moths, Tobacco moths, and meal worms.

FOOD PLANT FOGGING INSECTICIDE

EPA Reg. No. 6125-17

A Concentrated PYRENONE[®] Insecticide
