Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry

Quat #14 has been formulated to aid in the reduction of cross-contamination in these areas.

Quat #14 is a one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed. Quat #14 is an effective one-step sanitizer-cleaner for use on non-food contact surfaces

When used as directed Quat #14 will deodorize surfaces in toilet areas behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause mal odors
