

**ADDITIONAL PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Avoid contamination of feed and foodstuffs. Do not use on edible crops. Remove all food and food utensils before spraying with this product and wash all food preparation surfaces after spraying.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

To Control Insects in Bird Cages, Aviaries, Kennels, Veterinary Hospitals, Homes and Institutions

FOR GENERAL INDOOR USE

To control insects indoors, direct the spray toward the lower wall portions, baseboards, rugs, carpets and floors of infested areas. Apply the spray lightly, treating both sides of rugs, carpets and pads, if possible.

FOR BIRD CAGES AND AVIARIES:

Remove bird(s) and food and water containers before spraying. With nozzle adjusted to deliver a fine mist, apply spray until inside area is moist but not to the point of runoff. Replace birds only when spray is dry.

NOT RETURNABLE FOR CREDIT

VETERINARY HOSPITAL & KENNEL SPRAY

An unsynergized synthetic pyrethroid for killing fleas, houseflies, mosquitos, gnats, roaches, earwigs, sowbugs, spiders and centipedes.

ACTIVE INGREDIENTS:

* Resmethrin (1S-Phenylmethyl)-3-furanylmethyl 2,2-dimethyl-(2-methyl-1-propenyl)cyclopropanecarboxylate	0.250%
Related compounds	0.034%
INERT INGREDIENTS:	99.716%
TOTAL	100.000%

* Cis/trans isomers ratio max. 30% (±) cis and min. 70% (±) trans
U.S. Patent No. 3,465,007

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional precautionary statement

16 Fl. Oz. (473 ml.)**

International No. 116G7

DIRECTIONS FOR USE
(Continued)

AS A SPACE SPRAY: To kill flies, mosquitoes and other mentioned flying insects in waiting rooms, offices, examination rooms and housing quarters, apply with sprayer adjusted to deliver a fine mist. Use at the rate of one ounce per each 1000 cubic feet of space. Point spray upwards and direct mist to all parts of the room, especially windows and other light sources. Fill the enclosed area with mist. Wherever practical keep doors and windows closed for at least 15 minutes or more after application. Do not remain in treated areas and ventilate after treatment is completed. Avoid wetting of fabrics as product may stain.

AS A SURFACE SPRAY: For rapid cleanup of fleas and other mentioned crawling insects in waiting rooms, offices, examination rooms, dog runs and animal quarters, apply as a surface spray with sprayer adjusted to deliver coarse droplets. Keep nozzle about 8-12 inches from surface to be treated. Spray directly on insects where possible and spray thoroughly into hiding places such as cracks, crevices, moist areas, openings and around pipes, sinks, under equipment, baseboards and storage areas. Apply spray until area is moist, but not to the point of runoff. Bedding should be removed and sprayed thoroughly.

Where possible spray insects directly and repeat as necessary.

NOT FOR OUTDOOR USE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Do not store below 32°F

PRODUCT DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bottle. Rinse thoroughly before discarding in trash.
