In EPA Letter Dated:

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS**

JUN 29 1983

**CAUTION**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended for the pesticide  
register. EPA Reg. No.

Harmful if swallowed. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs, and domestic water supplies. Wash thoroughly with soap and water after handling.

6175-34

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated.

**IF ON SKIN:** In case of contact, remove contaminated clothing and wash affected areas with soap and water.

**IF IN EYES:** Flush eyes with plenty of water. If irritation persists, contact a physician immediately.

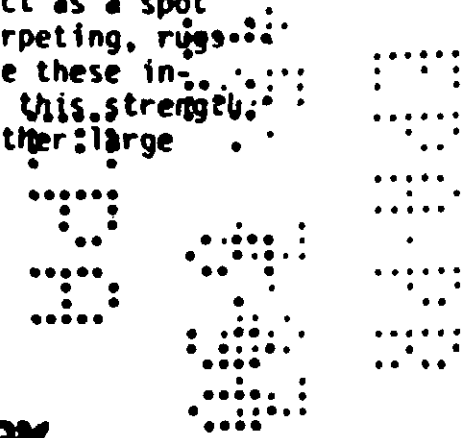

**NOTE TO PHYSICIAN:** Chlorpyrifos is a Cholinesterase inhibitor. Treat symptomatically. Atropine by injection only is an antidote.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**GENERAL INFORMATION:** Use this insecticide at full strength to control the pests indicated in the areas listed. Repeat the treatment as needed. When spraying indoors, cover aquaria and fish bowls and remove birds such as canaries from area prior to treating. **DO NOT PERMIT HUMANS OR PETS TO CONTACT TREATED SURFACES UNTIL THE SPRAY HAS DRIED.**

**FOR CONTROL OF CARPET BEETLES:** Thoroughly apply this product as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs, and furniture, in closets and on shelving, and wherever else these insects are seen or suspected. **DO NOT** apply this product, at this strength, as a broadcast spray for applying to the entire carpet or other large areas.

**BEST AVAILABLE COPY**

**DIRECTIONS (CONT'D)**

**TREATMENT:** Apply this product, as a coarse spray or with a brush to localized areas where cockroaches, (including strains resistant to other insecticides), ants, clover mites, crickets, fire-silverfish, and spiders are found or normally occur including corners of rooms and closets; around plumbing and other utility fixtures; cracks and crevices in walls; along and behind baseboards beneath and behind sinks, stoves, refrigerators and cabinets. Also apply to ant trails, also around doors and windows and wherever these pests may find entrance. **NOTE:** A period of 4 to 7 days is usually required for maximum effect on cockroaches. Apply spray in areas which are moist or damp, avoid excessive wetting.

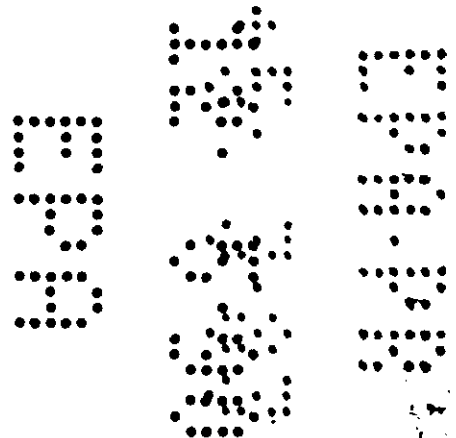

**CONTROL OF FLEAS AND BROWN DOG TICKS:** Thoroughly apply as a spray to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards, window frames and localized areas of floor and floor covering where fleas and ticks may be present. The period of activity of this product to control flea larva is up to 42 days. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.  
Store above freezing (32°F).  
Do not reuse empty container. Wrap empty container and put in collection.

**NOT RETURNABLE FOR CREDIT**
