FOGGER
(Combination)

For use in fogging & misting equipment

KILLS FLIES, GNATS AND MOSQUITOS

DIRECTIONS

FOGGER
(Combination)

A formulation compounded to give both excellent knock-down and kill. Contains Malathion, Pyrethrins and Piperonyl Butoxide. Should be applied as a fog or fine mist. Completely envelope area to be treated in accordance with type of applicator employed. This is a concentrated spray and should be used as is unless special manufacturer's instructions state otherwise. Especially compounded for outdoor use for drive-in theatres, driving ranges, parks, race tracks, etc., and for indoor use where large areas are involved such as auditoriums. Close doors and windows before spraying operations.

October 3, 1966

Malathion **	0.50%
Aromatic Petroleum Derivative Solvent	0.21%
Piperonyl Butoxide, Technical **	0.12%
Pyrethrins	0.05%
Petroleum Distillate	11.81%
	100.00%

* Equivalent to 0.1% of (6-propylpiperonyl ether and to 0.025% of related compounds.

** 0,0-Dimethyl/di-hydro-1,3,4-dioxaphosphorin-2-yl methyl succinate.

Harmful if swallowed. Avoid prolonged or repeated contact with spray mist. Avoid contact with eyes and contact with skin; wash thoroughly after using. Avoid contamination of food and foodstuffs. Do not use or store near heat or open flame. Do not use on pets or humans. Fish bowls and aquaria should be removed or covered before and approximated by one (1) hour after treatment.
