SPECIAL INSECTICIDE  
RESIDUAL SPRAY PLUS KNOCKDOWN

For indoor application as a surface spray. Use in spot treatments for the control of such crawling pests as cockroaches, ants, spiders, silverfish, crickets, earwigs and carpet beetles. For flying insects the residues formed by the sprays are effective against house flies, wasps and mosquitos as well as ants and roaches.

Special Insecticide  
Residual Spray Plus  
Knockdown

DIRECTIONS

For roaches and other named insects spray in the cracks, crevices and other hiding places applying enough to wet the surface without any run-off of the spray. For carpet beetles, treat the undersides of carpets; also baseboards. For ants, spray trails and areas around door sills and window frames where they may enter. For flying insects, treat selected areas such as doors, around windows and screens. The insects that are hit by the spray are killed and others are killed when they rest on the residual deposits. Repeat after 2 to 4 weeks, or as needed.

ACTIVE INGREDIENTS

Chlordane, Technical ** . . . . .	3.00%
Piperonyl Butoxide, Technical * . . . . .	0.252%
Pyrethrins . . . . .	0.031%
Petroleum Distillate . . . . .	<u>96.717%</u>
	100.000%

Nov. 7, 1967

\* Equivalent to 0.202% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.05% of related compounds

\*\* Consists of Octachloro-4, 7-Methanotetrahydroindane and related compounds.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing of spray mist. Avoid contact with skin; wash thoroughly after using. Avoid contamination of food and foodstuffs.
