CHLORDANE
Concentrate 74%

DIRECTIONS

Ants: Mix 2 teaspoons in a pint of water and paint or spray (coarse sprayer) where ants travel and on door sills and window frames. Repeat often.

Ant Hills: Mix 2 tablespoons in a quart of water and soak hill.

Roaches: Mix 3 teaspoonsful in pint of water and spray (coarse sprayer) wherever roaches infest, such as cracks. Try to spray directly on insects. Repeat often.

Silverfish: Same as for roaches, getting behind shelving, sinks, baseboards. When used in the home it should be applied as spot treatments only.

Japanese Beetles: Larvae in lawns and turf - Use 3 oz. in 5 gals. water for each 1,000 sq. ft. of lawn to be treated.

Mosquitos: To control mosquitos in lawns use 1 oz. (2 tbsps.) in 3 gals. of water for each 500 sq. ft. of lawn.

Termites: Use 1 pint in 5 gals. water or fuel oil to treat trenches dug around foundations of buildings. Use 1/2 gallon of this per foot in shallow trench (12 to 15"). 1 gal. per foot for deep trench (30").

Crab Grass: Use 1 1/2 pints in 5 or 6 gallons of water per 1,000 sq. ft. of lawn. Do not use on newly seeded lawns. Apply in early spring.

ACTIVE INGREDIENTS:

Chlordane, Technical* 74%

Petroleum Distillate 19%

INERT INGREDIENTS: 7/10
100%

* Equivalent to 44.4% Octachloro - 4,7 - Methanotetrahydroindane and 29.6 related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray. Contact with skin can cause toxic symptoms. In case of spillage on the skin wash with soap and water. Avoid contamination of foodstuffs or feed. Do not use on humans, household pets, dairy animals or animals ready for slaughter. Do not use, spray, pour or store near heat or open flame. Concentrate and solution may damage grasses and shrubbery. Keep children and animals out of treated areas until the material is washed into the soil and the grass is thoroughly dry. Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

This product will kill fish and wildlife. Keep out of any body of water. Birds feeding on treated areas may be killed.

ANTIDOTE: IF SWALLOWED give a tablespoon of baking soda, salt or mustard in glass of water and repeat until vomit is clear. Call a physician.

Contents 1 gallon

USE: See label for directions
