Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions and industry. KNOCK-OUT 256 has been formulated to aid in the reduction of cross-contamination in these areas. KNOCK-OUT 256 is a one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and will prevent the growth of mold and mildew and their odors when used as directed. KNOCK-OUT 256 is an effective one-step sanitizer-cleanser for use on non-food contact surfaces. When used as directed, KNOCK-OUT 256 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, kennel areas and other places where bacterial growth can cause malodors.
