

Damon Chemical Company, Inc.
P.O. Box 2120
Alliance, OH 44601-0120

Attention: Brian T. Martin

Gentlemen:

Subject: Daco 256
EPA Registration No. 6186-48
Your Submission Dated October 21, 1987

The submission referred to above, submitted to change the product name from Knock-Out 256 to Daco 256, is acceptable and a stamped copy of the labeling is enclosed for your records.

However, at the printing of your next set of labels, delete the Service Persons statement from the center panel.

If you have any questions concerning this letter, please contact Martha DeLaney at (703) 557-6982.

Sincerely yours,

John H. Lee

Disinfectant - Cleaner - Sanitizer - Fungicide - Mildewstat - Virucide*
— Deodorizer for Hospitals, Institutional and Industrial Use.

Effective in hard water up to 400 ppm hardness (calculated as CaCO₃)
in the presence of 5% serum contamination.

Active Ingredients

Ortho-chloro-methyl-para-aminobenzoic acid	6.510%
Dioctyl dimethyl ammonium chloride	3.255%
Dodecyl dimethyl ammonium chloride	3.255%
Allyl alcohol, 50% (C ₁₂ 40% C ₁₄ 10%) dimethyl benzyl ammonium chloride	8.680%

Inert Ingredients

	78.300%
	100.000%

Only for Sale to, Use, and Storage by Service Persons

EPA Registration No. 6186-48

DAMON CHEMICAL CO., INC., Alliance, Ohio

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. DACO 256 is a proven "one-step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply diluted DACO 256 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, bedframes, operating room tables, surgical instruments and apparatus, elevators, carts and hand rails, with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. **Do not use this product on an inhalation therapy and/or pulmonary diagnostic equipment.** For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty. This product may be pre-diluted for later use.

Disinfection: To disinfect hard, non-porous surfaces, add 0.5 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. The activity of DACO 256 has been evaluated in the presence of 5% serum and 400 ppm hard water by the AOAC use dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms as represented by:

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed or absorbed through skin. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of skin contact, wash with plenty of soap and water. For eyes, flush with water for 15 minutes and get prompt medical attention. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

fungicidal and will prevent the growth of mold and mildew and their odors when used as directed. DACO 256 is an effective one-step sanitizer-cleaner for use on non-food contact surfaces. When used as directed, DACO 256 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, kennel areas and other places where bacterial growth can cause malodors.

STORAGE AND DISPOSAL

- Do not contaminate water, food or feed by storage disposal
- Do not store on side
- Avoid creasing or impacting of side walls

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke. Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.
