RE: Application for Amendment dated November 5, 2010
Product Name: B-T-F Chlor-Tab Sanitizer
EPA Registration Number: 6198-13

Dear Mr. Landman:

The Agency has reviewed your application for amendment submitted in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended, and determined the action acceptable with the following comments:

- Change "For Commercial Use" to "Intended for Commercial Use"; and,
- Revise the second sentence of instruction 4 in the Directions for Use to read "Immerse all surfaces for one minute or contact time specified by governing sanitary code".

In summary, you have requested the addition of a Sanitization of Potable Water Containers and Systems use. This claim will not be approved without product specific product performance data that supports a sanitization claim with a contact of one minute. See our web page for information: <http://www.epa.gov/oppad001/sciencepolicy.htm>.

Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p)(2) and then the website is subject to review by the Agency. If the website content is false or misleading, then the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance for action.

BTF CHLOR-TAB SANITIZER

CONVENIENT AND ECONOMICAL 100 EASY TO USE TABLETS

Intended

FOR COMMERCIAL USE

ACTIVE INGREDIENT:

Sodium dichloro-s-triazinetrione dihydrate 25%

OTHER INGREDIENTS: 75%

Total: 100%

Provides 13.75% Available Chlorine

KEEP OUT OF REACH OF CHILDREN
DANGER
SEE SIDE PANELS FOR PRECAUTIONARY STATEMENTS.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with plenty of water for at least 15 minutes. If wearing contact lens rinse for 5 minutes, remove lens and continue to rinse eye. Call a Poison Control Center or Physician for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a Poison Control Center or Physician for treatment advice.

IF SWALLOWED: Call a Poison Control Center or Physician for treatment advice. If able to swallow, sip a glass of water. Do not induce vomiting unless told to do so by the Poison Control Center or Physician. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a Poison Control Center or Physician for treatment advice.

NOTE: Have the product container or label with you when contacting the Poison Control Center or Physician or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

For information on product, usage, etc. call 1-800-533-0027. Product labels, Material Safety Data Sheets, etc. can be found online at www.NationalChemicals.com. For information on health concerns, medical emergencies, or pesticide incidents, call the National Pesticide Information Center at 1-800-858-7378.

HAZARDS TO HUMANS and DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes irreversible eye damage. Do not get in eyes or on skin or clothing. Wear protective eyewear (goggles, safety glasses or face shield). Harmful if swallowed or absorbed through skin or inhaled. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse. Avoid contact with skin and eyes. Do not contaminate food.

PHYSICAL AND CHEMICALS HAZARDS: Avoid contact with strong alkalis and other oxidizers. Mix only with water. Use clean, dry utensils and other equipment. Contamination with organic matter may cause evolution of toxic gases.

ENVIRONMENTAL HAZARDS (5 gallons or greater): This chemical is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment authority. For guidance contact your State Water Board or Regional Office of the E.P.A.

{Right Panel}

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

MAKING B-T-F CHLOR-TAB SOLUTIONS (ppm = parts per million of available chlorine)

100 ppm = add 1 **CHLOR-TAB** to 2 ½ gallons (9.5L) of water.

Completely dissolve **CHLOR-TAB** and stir well before using.

TO SANITIZE GLASSES, DISHES, AND UTENSILS

1. Scrape and prewash utensils and glasses whenever possible.
2. Wash with compatible chemical detergents in hot, warm, or cold water.
3. Rinse with plain potable water. Do Not add any chemicals to this water.
4. Sanitize in a solution of 1 **CHLOR-TAB** to 2 ½ gallons water (100 ppm). Immerse all surfaces for *one* minute or contact time specified by governing sanitary code. Check with your Health Department as requirements vary.
5. Place sanitized utensils on rack or drainboard and allow to drain and air dry.

NEVER TOWEL DRY SANITIZED ITEMS.

TO SANITIZE BREWERY/DAIRY/FOOD PROCESSING EQUIPMENT AND UTENSILS

Prepare fresh sanitizing solution (100 ppm available chlorine) daily or more often if diluted or soiled as specified by governing sanitary code. Prohibit re-use of solution for sanitizing mechanical operations.

Clean and rinse surfaces prior to sanitizing. Place items in or spread solution over surface to be sanitized.

Let stand 2 to 5 minutes. Wipe excess away. Allow to air dry.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Keep this product dry in a tightly closed original container when not in use. Store in a cool dry place away from direct sunlight and heat to avoid deterioration. Open dumping is prohibited. Do not reuse empty container.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse. Wrap, puncture and discard in trash. Dispose of in a sanitary landfill or offer for recycling if available.

{Auxiliary Panel}

TO SANITIZE POTABLE WATER CONTAINERS AND SYSTEMS

Sanitizing Solution (100 ppm): add 1 tablet to 2.5 gallons (9.45 liters) of water.

Tank Size	Sanitize (100 ppm)
30 gallons	13 tablets
60 gallons	26 tablets
120 gallons	52 tablets

Prior to sanitizing, empty potable water tank.

TO SANITIZE: For every 30 gallons of tank capacity, dissolve 13 tablets in one gallon of clean water. Allow tablets to completely dissolve. Add this solution to the potable water tank, and completely fill with potable water. Allow to soak for 60 seconds. Drain tank. No rinsing required.
