DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in cool area away from heat and open flames.

Disposal: Replace cap and securely wrap original container in several layers of newspaper and discard in trash. Do not incinerate or puncture.

Usage: Shake well. Hold dispenser upright and point opening on side of valve away from person. Press valve to spray. Hold valve at least three feet from all objects or surfaces for efficiency. To avoid reaction with such materials as asphalt and plastic tiles, some linoleums, etc., do not spray on or in such manner as to cause mat to fall on these materials.

TO KILL FLIES, MOSQUITOES, GNATS, FLYING MOTHS: Spray upwards into four corners of closed room, thoroughly misting with spray. Close windows for about 15 minutes after treatment.

WASPS, HORNETS: Spray 20-25 seconds per 1,000 cu. ft. Spray liberally into cracks of woodwork, walls, floors, hiding and breeding places, directly on insects when possible. Repeat as necessary.

ROACHES, ANTS, FLEAS, SILVERFISH, WATER BUGS: Spray liberally into cracks of woodwork, walls, floors, hiding and breeding places, directly on insects when possible. Thoroughly spray sleeping quarters of animals. Spray ant hills and ant trails over window and door sills and other locations. For silverfish, spray storage areas, shelves and bookcases. Repeat as necessary for control.

BEDBUGS: Spray bed frame, springs, mattress tufts, seams and all cracks and hiding places about the bedroom.

MOTH WORMS, CARPET BEETLES: Clean, air, brush clothing, carpets, rugs, and fabrics. Spray thoroughly from 3-foot distances, especially seams, folds, under collars, labels. Clean, spray closets, drawers. Repeat approximately every thirty days. For carpet beetles, treat baseboards, infested furniture, underside of carpets, floor corners and cracks in floor and under rugs where the insects tend to congregate and cause damage.

Recommended for use even around HOMES, HOSPITALS, RESTAURANTS, DAIRIES and FOOD PROCESSING ESTABLISHMENTS.

KILLS DOT-resistant flies

CAUTION: Keep out of reach of children. Do not spray directly on foodstuffs, feeds, and utensils. Remove pets and cover fish tanks in rooms being sprayed. When used in food processing plants as a space spray, use only when plant is not in operation. Remove or cover food during treatment. Cover all working surfaces or thoroughly clean before reuse. Do not remain in treated area and ventilate area when treatment is completed.

CAUTION: Do not puncture can or throw into fire or incinerator. Do not store at greater than normal room temperature or place on hot surface. Contents are under pressure.
