PYRETHRUM ULV INSECTICIDE

Summit

DIRECTIONS FOR USE

FOR TRUCK MOUNTED LECO ULV, MODEL HD The objective is to treat the area with .002 to .0025 pounds of pyrethrins and .010 to .0125 pounds of piperonyl butoxide per acre

Summit PYRETHRUM ULV INSECTICIDE is a ready-to-use formulation which should be applied without further dilution. Dispense fog at the following flow rates depending upon the speed at which the truck is moving

Truck Speed Miles per Hour	Flow Rate of Summit PYRETHRUM ULV Fluid Ounces per Minute
5	2 to 2.25 fluid ounces
10	4 to 4.5 fluid ounces

Formulation pressure on machine should be set at 3 lbs per square inch, and the discharge nozzle should be positioned approximately 30° above the horizontal off the side of the truck bed

Delivery rate and traveling speeds can be varied slightly so long as the basic objective of .002 to .0025 pounds actual pyrethrins per acre is maintained. Use a swath width of 300 feet for acreage calculations

Best results are obtained by application when there is a slight breeze - 5 miles per hour or less. Fog with the breeze so that the wind will carry fog from roads or paths into the area to be treated. Repeat applications as needed to obtain the desired reduction in adult mosquito population.

Highly Concentrated, Ready-To-Use Insecticide For Use In Ultra Low Volume Cold Aerosol Fog Generators For Large Area, Outdoor, Adult Mosquito Control

ACTIVE INGREDIENTS:

Pyrethrins	100%
Piperonyl Butoxide Technical	5%
Mineral Oil	25%
	70%

*Consists of 20% (butylcarbitol) (6-propylpiperonyl) ether and 5% other related compounds
†Special oil to produce optimum particle size for ULV application

CAUTION: KEEP OUT OF REACH OF CHILDREN.
See other cautions on side panel.

Summit PYRETHRUM ULV INSECTICIDE is formulated for use in cold aerosol fog generators, such as the LECO ULV, MODEL HD, which produce a fog having most of its particles in the 5 to 50 micron range.

This product may be used in mosquito adulticiding programs involving residential and recreational areas, swamps, marshes, overgrown waste areas, roadsides and pastures where adult mosquitoes are present in annoying numbers.

CAUTIONS

Harmful if swallowed. Remove spillage from skin and clothing with warm water and soap.

Note: This product is toxic to fish. Keep out of ponds, lakes, and streams. Do not contaminate any body of water with spillage or cleaning solutions containing this product. Do not overdose any swamp area or any area bordering streams or lakes.

Do not re-use container. Perforate or crush and bury in a safe place.

Be sure spraying equipment is thoroughly clean before use so as not to contaminate the environment.

Keep container closed when not in use. Store in a cool, dry place.

NOTICE

Seller's guarantee shall be limited to the terms of the label and subject thereto, the buyer assumes any risk to persons or property arising out of use or handling, and accepts the product on these terms.
