DIRECTIONS FOR USE

FOR TRUCK MOUNTED ULV MODEL NO.

DIBROM[®] ULV INSECTICIDE

Summit

DANGER

Highly Concentrated,
Ready-To-Use Insecticide
For Use In Ultra Low Volume
Cold Aerosol Fog Generators
For Large Area, Outdoor,
Adult Mosquito Control

ACTIVE INGREDIENT

OTHER INGREDIENTS

DANGER: KEEP OUT OF REACH OF CHILDREN

DIBROM[®] ULV INSECTICIDE is a highly concentrated insecticide for use in foggers such as the Ultra ULV Model fogger. It is a white powder that forms a fine mist in the fogger.

The product may be used in many locations for mosquito control, including airports, municipalities, and schools. It is a powerful insecticide and should be used according to the label directions. Avoid contact with people and animals.

ACTIVE INGREDIENTS

DANGER: KEEP OUT OF REACH OF CHILDREN

Summit DIBROM[®] ULV INSECTICIDE is a highly concentrated, ready-to-use insecticide for use in ultra low volume cold aerosol fog generators, such as the Leeco ULV Model 15. It is particularly effective in a range of 50 to 100 feet. The product may be used in mosquito control areas, municipalities, fair grounds, swamps, and in industries such as long distance trucking, barns, and other large areas. It is also effective in controlling mosquitoes in wooded areas, live stock pastures, and at necessary to control mosquitoes in large areas.
