PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing vapor or spray mist. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health under the provisions of 30 CFR part 11. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS Do not store near heat or open flame.

PYRETHRINS FOGGING DIRECTIONS

It is a violation of Federal law to use this product

NOTE: When used in hospitals, patients should be removed. Do not return patients to room until after ventilation. **Space Spray to Kill Flies, Mosquitoes, Small Flying Motes** and ventilating equipment. Apply with mechanical or fogger size. Direct spray upwards toward upper corners of room per 1,000 cubic feet of space to be treated. Vacate room at least 15 minutes prior to re-entry. Sweep up and destroy fallen insects. **Contact or Surface Spray to Kill Cockroaches, Ants, and Droplets.** Force spray into cracks and crevices in walls around pipes and openings, along baseboards and other in crevices to be treated. For ants, spray trails and all points of contact. In all cases contact as many insects as possible for control.

To Kill Carpet Beetles: Directly spray as many insects as possible on furniture. Both top and bottom of rugs and carpets should be sprayed under furniture and wherever these insects are seen or suspected.

To Kill Bedbugs: Spray mattresses thoroughly, especially floor boards and wall cracks and crevices. Allow spray to dry.

To Kill Exposed Forms of Confused Flour Beetles, Sawtoothed Weevils: Find and destroy infested packaged goods. Remove any of the named insects present. Place clean paper on the surface to catch any insects that may fall.

To Kill Fleas: Remove and destroy animals' bedding and sprays. Allow spray to dry and replace clean bedding. Do not use animals with a registered flea control product before allowing them to be treated.

Space Spray to Kill Flying Insects Outside: Apply fog on areas where visible fog or residue remains. Fog should be directed downwind to be treated. Walk crosswind to cover the entire area. Use in areas to be treated. Allow sufficient fogging time for each area. 10 seconds.

MISTOCIDE® Registered trademark

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Do not store near heat or open flame.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed. Use of this product may be disposed of on site or at an approved collection point.

CONTAINER DISPOSAL:

Metal containers: Triple rinse (or equivalent). Then offer for recycling, if available, or for disposal in a sanitary landfill, or by other procedures approved by State or Federal authorities.

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling, if available, or for disposal in a sanitary landfill, or incinerator, or, if allowed by State or Federal authorities, by other procedures approved by State or Federal authorities.
