FEB 19 2010

Subject: Label Notification for Pesticide registration Notice 2007-4

Dear Mr. Cohen:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 dated November 10, 2009 for:

EPA Registration 6218-65

Summit Permacide P-1

The Registration Division (RD) has conducted a review of this request for applicability under PR Notices 2007-4 and finds that the label changes requested falls within the scope of PR Notices 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

Linda Arrington

Notification PR Notice 2007-4

Dear Madame, Sir:

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144,156, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that is is a violation of 18 U.S.C. Sec. 1001 to willfully make a false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR § 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

If further information is required please do not hestitate to contact our office.

Sincerely,

SUMMIT CHEMICAL CO.

PERMACIDE® P-1

DIRECTIONS FOR USE Continued

ON LIVESTOCK: To protect cattle (beef and dairy), goats, sheep, hogs and horses from horn flies, face flies, house flies, mosquitoes and gnats: Apply a light mist sufficient to wet the surface of the hair. For face flies spray face and head, but do not spray into eyes.

To control stable files, horse flies and deer flies: Apply at a rate of 2 ounces per adult animal, sufficient to wet the hair thoroughly.

To control blood-sucking lice: Apply to the infested areas of the animal, using a stiff brush to get the spray to the base of the hair. Repeat every 3 weeks if required.

To control poultry lice: Spray roosts, walls and nests or cages thoroughly. This should be followed by spraying over the birds with a fine mist.

To control bedbugs and mites in poultry houses: Spray crevices of roost poles, cracks in walls, and cracks in nests where the bedbugs and mites hide

ON DOGS: To control fleas, ticks and lice: Start spraying at the tail, moving the dispenser rapidly and making sure that the animal's entire body is covered, including the legs and underbody. While spraying, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets thoroughly. Do not spray into eyes or face. Avoid contact with genitalia.

NOTE: Not recommended for use on puppies less than four weeks old.

OUTDOOR APPLICATION: (As an aid in controlling these insects). For use on roses, dahlias, asters and other ornamentals to kill Japanese beetles hit by spray as well as whiteflies, aphilds, exposed thrips, spiders, red mites and leafminers.

exposed inrips, spiders, red miles and leatminers.

May be used on plants as a multi-purpose spray in small gardens and for spot treatments of incipient insect infestations to prevent spreading in large garden areas. Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops. May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, dahlias, delphiniumsa, dogwoods, English Ivy, eunonymus, fuschia, geranium, crassula, grape vines, Kentia palms, laurels, marigolds, rhododendrons, roses, rubber plants, snapdragons, stocks, wandering Jew and zinnias. Effective when used as a directive against, whiteflies, aphids, spider and red mites, exposed thrips, lace bugs, Japanese beetles, pavement ants, clover mites and army worms.

When spraying plants do not operate closer than 18 inches. Use sweeping motion. Be cautious

about wetting tender follage, young plants and new growth. Do not spray plants when temperatures exceed 90 degrees F. Contact insects directly whenever possible. Repeat treatment as infestations

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Avoid contamination of feed or food stuffs. Remove pets and cover fish tanks before spraying. This product is not for use on humans. Do not allow children or pets to contact treated areas until surfaces are dry. Do not apply in classrooms when in use. Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm. Do not apply to institutions (including libraries, sports facilities, etc.,) in the immediate area when occupants are present. Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Do not store near heat or open flame

If Empty: Nonrefillable container, Do not reuse this container. Place in trash or offer for recycling, if available If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

SHAKE WELL BEFORE USING

Affix trigger, pump or other type sprayer to container for application. Do not transfer to another container.

INDOOR APPLICATION: FOR SPOT APPLICATION ONLY, Do not use as a space spray indoors, Also, treat your yard with a product registered for yard application

SURFACE SPRAYING: To control cockroaches, waterbugs, paimetto bugs, scorpions, millipedes, centipedes, sowbugs, pillbugs, ants, silverfish, firebrats, spiders, crickets, clover mites, cheese mites, granary weevils, confused flour beetles, rust red flour beetles, drugstore beetles, meal worms, grain mites and cadelles. Direct the spray into hiding places, cracks and crevices, and behind shelves and drawers. For silverfish, spray bookcases. For ants, spray trails, nests and points of entry.

To control carpet beetles: Spray edges of carpeting and under carpeting and rugs, Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of

To control bedbugs: Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints, Treat baseboards, moldings and floors. Allow all treated articles to thoroughly

To control fleas and ticks: (adults and larvae): Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, moldings, window and door frames. Fresh bedding should be placed in animal quarters following treatment.

To control clothes moths: Remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storages, directing the spray into cracks, joints and crevices. After airing, intested articles may be treated lightly, keeping nozzle at least three feet from fabric to avoid staining.

To kill lice and louse eggs: Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Then proceed to spray entire area to be treated. Spray from a distance of 8 to 10 inches. Treat only those garments and parts of the bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all treated articles to dry thoroughly
