EPA REG. NO. 6218-73

Net Contents: 36 oz.

EPA REG. NO. 6218-73

CAUTION

GENERAL INFORMATION:

MOSQUITO BITS™ is a highly selective microbial insecticide effective against mosquitoes in a variety of habitats. When spread over the water surface the BITS release a biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. MOSQUITO BITS™ may be used in all types of standing water sites where mosquito larvae grow. The BITS will give a quick kill within 24 hours. For more residual long term control please use MOSQUITO DUNKS® after applying MOSQUITO BITS™.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

OUTDOOR USE AROUND THE HOUSEHOLD:

Sprinkle one teaspoon per 25 square feet or one tablespoon per 75 square feet (1/2 lb. per 2178 square feet) over the surface of standing water found around the home. MOSQUITO BITS™ should be applied uniformly. A seven to fourteen day interval between applications should be employed. Longer periods of mosquito suppression will be obtained with the subsequent use of MOSQUITO DUNKS®.
