

DIRECTIONS FOR USE

For asphalt tile, rubber, cork, vinyl, terrazo, linoleum, concrete, varnished wood and other hard or resilient floor surfaces, use 2 oz. Dorceide per gallon of water to give good cleaning and disinfection.

In areas of heavy soil, 4 oz. of Dorceide or more, per gallon of water may be used.

Dorceide is compatible with most soaps and cleaners, and rinses clean. It works well in hard or soft water.

USDA Registration No. 6233-4

DORCIDE

THE BALANCED GERMICIDAL CLEANER

Dynamic Cleaning

Bacteriostatic Sanitation

DORCIDE, in one operation, balances intensive cleaning ability with active disinfection and deodorization. It is a useful and desirable HOSPITAL GRADE cleaner for floors, woodwork and fixtures, such as beds, basins and equipment.

* * *

Especially recommended for areas where disinfection of the surface cleaned is desired such as ordinary or conductive floors in hospital operating rooms.

CAUTION: Avoid contamination of food and foodstuffs. If splashed in eye, wash profusely with water. Avoid contact with skin and eyes. Wash thoroughly after handling.
