TAMINATE OR STORE NEAR FEED OR FOODSTUFF. RINSE EMPTY CONTAINER
THOROUGHLY WITH WATER AND DISCARD IT.

DIRECTIONS FOR USE

To charge tank, add 5 ounces
AERO-FLUSH to each 4 gallons
of water in the chemical toilet (1 1/4
ounces AERO-FLUSH per gallon
of water).

The usual 10 gallons of water
in the 100 gallon capacity toilet
would require 12 1/2 ounces AERO-
FLUSH.

Toilet should be pumped and
cleaned when waste solution
reaches 70 to 80 gallons. After
pumping and cleaning, recharge
as above.
