

APR 1 1975

UNDER FEDERAL REGULATION  
FUNGICIDE ACT AND ALGAEACIDE ACT  
FOR ECONOMIC POISON REGISTERED  
ED UNDER NO. 6233-17

**DIRECTIONS FOR USE:**

**Initial Dose:** 1 gallon AMADOR ALGAECIDE to 50,000 gallons of water.

**Maintenance Dose:** 1 quart AMADOR ALGAECIDE to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or if the pool has unusually heavy use add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart AMADOR ALGAECIDE for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of AMADOR ALGAECIDE to 50,000 gallons of water in treating water left in the pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of pool before it is returned to use the following season.

**FISH AND OR WILDLIFE PRECAUTIONS:** This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.

# AMADOR ALGAECIDE For SWIMMING POOLS

CONCENTRATED SWIMMING POOL ALGAECIDE  
Keeps Pool Water Clear and Free of Visible Algae

CONTROLS ALGAE SLIMES

**ACTIVE INGREDIENTS:**

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)  
dimethylbenzylammonium chlorides..... 5%

n-Alkyl (68% C12, 32% C14)  
dimethylethylbenzylammonium chlorides..... 5%

INERT INGREDIENTS: ..... 90%  
- DANGER - 100%

Keep out of reach of Children.  
See Right Side Panel For First Aid  
and Additional Precautionary Statements.

**AMADOR CHEMICAL CORPORATION**

P. O. Box 4081  
Stockton, California 95204  
EPA Reg. #6233-17

**NET CONTENTS**

When AMADOR ALGAECIDE is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

AMADOR ALGAECIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. AMADOR ALGAECIDE works best when added by itself directly to pool water. AMADOR ALGAECIDE at use dilution is non-corrosive to inanimate surfaces.

**DANGER**

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Harmful or fatal if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

**FIRST AID**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Avoid alcohol. Call a physician.

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, convulsion and respiratory depression may be needed.

**DO NOT REUSE EMPTY CONTAINER. DESTROY IT BY PULVERIZING OR CRUSHING. BURY OR DISCARD IN A SAFE PLACE AWAY FROM WATER SUPPLIES.**
