Regulatory Compliance Specialist
Auto Chlor System
746 Poplar Avenue
Memphis, TN 38105

Subject: Notification per PRN 98-10 – Add Alternate Brand Name
Product Name: Auto-Chlor Solution QA
EPA Registration Number: 6243-1
Application Date: March 16, 2021
Action Case Number: 00294758

Dear Ms. Crews:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

The alternate brand name “VSS130 SANITIZER” has been added to the product record.

Use Auto-Chlor Solution QA in hospitals, nursing homes, restaurants, bars, institutional kitchens, hotels and motels, schools, penal and military institutions. This product is an effective sanitizer. This product can be used on hard, nonporous surfaces such as: walls, floors, countertops, stainless steel surfaces, dishes, cooking utensils, silverware, glassware, appliances and sinks.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SANITIZING FOOD CONTACT SURFACES

When used as directed this product is an effective sanitizer at an active quaternary concentration of 200 ppm in hospitals, nursing homes, restaurants, bars and institutional kitchen against *Staphylococcus aureus*(ATCC 6538) and *Escherichia coli*(ATCC 11229).

For sanitizing and cleaning of equipment and utensils, prepare a 200 ppm active quaternary solution by adding 0.5 ounce of this product to 1 gallon of water (or equivalent dilution). Prior to application, remove gross food particles and soil by a pre-flush, or pre-scrape and, when necessary, pre-soak treatment. Follow with thorough washing in a good detergent or compatible cleaner, followed by a potable water rinse before applying sanitizer. Apply use-solution to dinnerware and food utensils by immersion. For items which are too large for immersion, solution may be applied with a cloth, mop, sponge or coarse sprayer. Treated surfaces must remain wet for 60 seconds (1 minute). Drain thoroughly and allow to air dry before reuse. No potable water rinse is required after application of sanitizer.

Fresh solution must be prepared at least daily or sooner if solution becomes diluted or soiled.

At ½ ounce per gallon of water, this product fulfills the criteria of Appendix F of Grade "A" Pasteurized Milk Ordinance, 2001 Recommendations of the U.S. Public Health Service in water up to 550 ppm (32 grains per gallon) hardness calculated as CaCO₃ when tested by the AOAC Germicidal and Detergent/Sanitizing Official Method.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Do not store on side. Avoid creasing of side walls. Keep this product in locked storage sufficient to make it inaccessible to children and persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of all excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representatives at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining

Note to Agency: Text appearing in parenthesis is done to show optional text.

contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Follow Pesticide Disposal instructions for rinsate disposal. Offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses) and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

(for containers of 5 gallons or more)

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting agency has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
