

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

6243-4

DATE OF ISSUANCE

12 DEC 1993

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

Auto-Chlor
Solution San

NOTICE OF PESTICIDE: ☐ REGISTRATION
☒ REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Auto-Chlor System
746 Poplar Avenue
Memphis, TN 38105

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed label before releasing the product in channels of trade with the reregistered labeling.

Make the following changes in the Confidential Statement of Formula (CSF; EPA Form 8570-4), and submit a revised CSF with the final printed labeling.

1. Note that the source products listed on the CSF which utilizes 9.2% sodium hypochlorite sources has not yet been reregistered. A revision of this CSF may be necessary if these source supplies are reregistered at a different active ingredient concentration than 9.2%.

DATE

12 DEC 1993

2. The second source of supply (2 of 2) listed on the CSF utilizing 10.5% sodium hypochlorite sources has not yet been reregistered. A revision of the CSF may be necessary if this source of supply is reregistered at an active ingredient concentration different than 10.5%.

3. The third source product (3 of 4) listed on the CSF utilizing 12.5% sodium hypochlorite sources has not yet been reregistered. A revision of the CSF or source of supply may be necessary if this source of supply is reregistered at an active ingredient concentration different than 12.5%.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

HAZARDS TO HUMANS AND ANIMALS

DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public water unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT

Mix only with water according to label directions. Mixing this product with organic matter (e.g. urine, feces, etc.) or chemicals (e.g. ammonia, acids, detergents, etc.) may release chlorine gas which is irritating to eyes, lung and mucous membranes.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

STORAGE & DISPOSAL

Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or rinsings that cannot be used should be diluted with water before disposal in a sanitary sewer. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Return empty container to manufacturer.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. The product is registered for use as a terminal sanitizing agent for manual washed or machine washed utensils. Dispensing instructions provide 50 to 200 ppm of Public Health disinfectant exposure for at least 1/2 minute or as recommended by Health Departments. Exposure time should be as recommended by manufacturer's specifications.

The product may be used as a bleaching agent in automatic machines; in this application, automatic machines are recommended. Do not rinse on silver or silverware; discoloration will occur.

This product is a high strength bleach and can be used in a variety of applications for general disinfection and sanitation. It is strong enough to kill bacteria and viruses. For details regarding use, consult the directions statement on the label.
