 methyl benzyl ammonium chlorides
INERT INGREDIENTS 50.0%

E.P.A. Reg. No. 6284-4-AA-329

algistat™ concentrate

Provides economical protection against algae growth for at least 4 months in a 10,000 gallon swimming pool.

1. For original treatment add 6 ozs. (3/4 cup) of SEARS Algistat Concentrate to each 10,000 gallons of newly filled fresh or thoroughly filtered water.
2. Add 1 1/2 oz. per 10,000 gallons every 7 days thereafter.
3. When closing pool, add double the initial treatment.
4. For an extensive growth of algae add 24 ozs. per 10,000 gallons of pool water.
5. Use other chemicals as recommended on packages.

NOTE: Algistat Concentrate must be added to water. Must not be combined with concentrated (dry) chlorine products; fire or explosion will occur.

DANGER: Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

NOTE TO PHYSICIAN. Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

DO NOT REUSE CONTAINER, DESTROY WHEN EMPTY.

This product is toxic to fish. Do not discharge effluent where it will drain into lakes, streams or ponds.

Apply this product only as specified on this label.
