NET WT. 32 OZ. (2 LB.)

E.P.A. REG. NO. 6284-20-ZB-539

SEARS di-chlorine Granular Concentrate

- A dry chlorine that dissolves immediately
- An effective germicide and algaecide
- Will not cause cloudiness in water
- Will not add scale forming minerals in the water

POOL START-UP (PRE-CONDITIONING) INSTRUCTIONS

When filling your new pool or refilling with fresh water at any time:

1. Bring pool water pH to a range reading between 7.2 and 7.6 on your Sears Test Kit 42 4227 and add SEARS Water Conditioner 42 4273.
2. Chlorinate and stabilize pool water by adding Sears Shock 42 4282 as prescribed on label. Alternate procedure: add SEARS di-chlorine Granular Concentrate 42 4275 at a rate of 8 oz. per 10,000 gallons of water. Allow the available chlorine residual to drop to 3 to 5 ppm before entering pool.
3. Start daily maintenance dosage.

DAILY MAINTENANCE DOSAGE FOR PROPERLY PRE-CONDITIONED POOLS

Daily dosage—apply the amount (approximately 1 to 3 ounces per 10,000 gallons) of Sears di-chlorine concentrate required to maintain a test kit reading in the range of 3.0 to 5.0 ppm available chlorine. TEST YOUR POOL WATER DAILY.

FOR MAXIMUM PROTECTION SUPER CHLORINATE (SHOCK) YOUR POOL WATER WITH SEARS POOL SHOCK 42 4282 EVERY TWO WEEKS AS PRESCRIBED ON THE LABEL.

More frequent chlorine dosage may be required from time to time to meet extra demands for chlorine resulting from heavy bathing loads, accumulations of dust and dirt by storms, or continued high temperatures.

DANGER

CORROSIVE. Causes eye damage. May cause burns on broken skin. Irritating to nose and throat if inhaled. May be harmful or fatal if swallowed. Do not get in eyes, on skin or on clothing. Protect eyes when handling. Avoid breathing dust.

STRONG OXIDIZING MATERIAL. Contact with organic matter or any foreign material may result in fire or explosive decomposition. Moisture contamination or fire may liberate irritating and hazardous chlorine containing gases. Avoid contamination with combustible materials. Keep away from heat and moisture. Store in cool, dry, well-ventilated area. Keep container tightly closed when not in use. Use only dry, clean measures. Mix only with water. Rinse container thoroughly clean with water before discarding.

FIRST AID. Internal—feed cooked cereal or bread soaked in milk, followed by olive oil or cooking oil. External—in case of contact, immediately flush eyes or skin with cold water for at least 15 minutes.
