# Algae Stop - 10

## ACTIVE INGREDIENT:

Poly(oxyethylene (dimethyliminio) ethylene-  
(dimethyliminio) ethylene dichloride) ..... 10.0%

INERT INGREDIENT ..... 90.0%

This product contains 0.86 lb. of active ingredient per gallon and weighs 8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

## CAUTION

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

**FIRST AID:** If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention immediately. If on skin, wash with soap and water. If in eyes, flush with cold water for at least 15 minutes. If inhaled, remove person to fresh air.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

## DIRECTIONS FOR GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Algae Stop - 10 is used to control the growth of algae in whirlpools, and hot tubs. For maximum effectiveness, whirlpools and hot tubs containing heavy growth of algae should be cleaned and refilled.

For pools having just visible algae growth add one gallon of Algae Stop - 10 per 10,000 gallons of water and refill. For treatment of a freshly cleaned and filled pool add one gallon of Algae Stop - 10 per 10,000 gallons of water. Subsequent treatments should be made every 5 to 7 days after treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth should be treated with 12 fluid ounces of Algae Stop - 10 per 1000 gallons of water. For heavily cleaned and filled spa, whirlpool, or hot tub, add one gallon of Algae Stop - 10 per 1,000 gallons of water. Subsequent treatments should be made every 5 to 7 days after treatment.

Algae Stop - 10 is compatible with those chemicals used in spas and is effective at both acid and alkaline pH. Algae Stop - 10 should not be used in spas treated with chlorine chemicals and may reduce the effectiveness of chlorine. Chlorine treatment is normally required. However, do not mix Algae Stop - 10 with chlorine products.

**STORAGE & DISPOSAL:** Do not contaminate water, soil, or food by storage or disposal. Keep container closed. Leaking or damaged container should be placed in a plastic bag and discarded in trash. Do not use for drinking water. All pesticides should be kept out of children and stored away from children. Wrap container in seal and place in trash.
