NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above name pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/re-registration for your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Add the phrase "EPA Registration No. 6284-48 to your label before you release the product for shipment.

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

A copy of your proposed label with our acceptance stamp is included with this registration with the understanding that you will comply with the conditions in the attachment to the registration notice.

Stabilized Granular Chlorinating Concentrate

Quick Dissolving - Long Lasting - Will not add scale

CONVENIENT AND EFFECTIVE BACTERIA AND ALGAE CONTROL.

Quick dissolving, completely soluble Stabilized Granular Chlorinating Concentrate takes the work out of pool care by providing a continuous and economical system of chlorine disinfection. For effective bacteria and algae control, maintain an available chlorine level of 1.0 to 3.0 ppm as determined by Chlorine Test Kit.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

POOL START-UP - (CONDITIONING) INSTRUCTIONS

When first filling your new pool or refilling with fresh water at any time:

1. Super Chlorinate (shock treat) pool with Stabilized Granular Chlorinating Concentrate, as prescribed below, to burn off harmful bacteria.
2. Test pool water with Test Kit and bring pH into 7.2 - 7.6 range. Add Dry Acid to lower pH or Soda Ash to increase pH as prescribed on labels.
3. Add Water Conditioner as prescribed on label to protect chlorine against loss due to sunlight.

MAINTENANCE FEEDING PROGRAM FOR PROPERLY PRE-CONDITIONED POOLS

Two and one half (2½) ounces of Stabilized Granular Chlorinating Concentrate will provide 1 ppm of available chlorine in 10,000 gallons of water. Test pool water daily and apply the amount of Stabilized Granular chlorine required to maintain a test kit reading from 1.0 to 3 ppm. Stabilized Granular Chlorinating Concentrate may be added directly to the surface of pool water.

Maintain pH reading in a range from 7.2 to 7.6 on your test kit. Add Dry Acid or Soda Ash as prescribed on labels to lower or raise pH.

Periodic SUPER CHLORINATION

Heavy swimmer loads, wind, dust and rainfall can cause bacteria and microscopic debris to accumulate in pool water. To maintain clean, clear water, super chlorinate with Stabilized Granular Chlorinating Concentrate every two weeks, weekly during hot weather. To super chlorinate add 10 ounces of Granular Concentrate per 10,000 gallons of pool water to bring chlorine level to a range between 5 to 10 ppm. Treat pool at night - do not allow swimmers to enter pool until chlorine level has dropped to 3.0 ppm.

SIDE PANELS

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place container in trash collection or dispose in approved landfill area, or bury in a safe place.

**KEEP OUT OF REACH OF CHILDREN
• DANGER HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

DANGER: Corrosive, causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

PRACTICAL TREATMENT (FIRST AID): If swallowed feed gruel, cooked cereal, or bread soaked in milk, followed by olive oil or cooking oil.

In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS: Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals, or any other foreign matter, may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.
