

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

RAPID CHLOR TABS

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Richey Industries, Inc.
P.O. Box 928
Medina, OH 44258-0928

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 121-52" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Rapid Chlor Tabs

For Pools and Spas and Hot Tubs

Totally Soluble

1" - 1 Ounce

- . Stabilized
- . Sun Protected
- . Protects against bacteria and algae
- . Easy Use
- . No Calcium build up
- . For Shocking
- . For Chlorination
- . Fast Dissolving
- . No Scale Formation.
- . Neutral pH

ACTIVE INGREDIENT:

Sodium Dichloro-s-Triazinetrione Dihydrate 99%

Inert Ingredient 1%

Available Chlorine 55%

Keep Out of Reach of Children

DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Keep Out of Reach of Children

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Get medical attention. Avoid alcohol.

IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

IF IN EYES: Flush with cold water for at least 15 minutes. Get medical attention.

IF INHALED: Remove person to fresh air. Get medical attention.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds, or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

Strong Oxidizing Agent

Mix only into water. Use clean dry utensils. Do not add this product to any dispensing device containing the remains of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container. Do not reuse empty container, but place in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

4-16

(SIDE PANEL)
(RAPID CHLOR TABS)

Each tablet weighs approximately 1 ounce

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

These tablets provide a steady source of available chlorine to control the growth of algae and kill many harmful bacteria. They dissolve quickly and have a neutral pH. There is no calcium build up or scale formation.

Add tablets to pool or spa skimmer, or place into floating dispenser. If floater is used, do not use floater for any other chemicals.

POOL START-UP--Initial Treatment

On first filling your new pool, spa or hot tub or refilling with fresh water at any time:

1. Shock treat with this product as prescribed below, to destroy harmful bacteria.
2. Bring pH of pool water within a range of 7.2 to 7.6 (7.2 to 7.8 for spas and hot tubs). Add dry acid to reduce pH or soda ash to increase pH as prescribed on labels.
3. Add water conditioner (cyanuric acid) as recommended on label for outdoor pools and spas only.
4. Start maintenance program.

It is recommended that spas and hot tubs be drained every 30-90 days, more often under heavy use. Consult manufacturer's recommendations concerning the compatibility of chlorine sanitizers with their equipment. Some oils, lotions, fragrances, cleansers, etc., may cause foaming or cloudy water and may react with chlorine sanitizers to reduce their efficacy.

MAINTENANCE PROGRAM

Add 3 tablets of this product for each 10,000 gallons of pool water every other day (1 tablet per 1,000 gallons of spa or hot tub water) to maintain a chlorine residual of 1 - 3 ppm for pools (4 - 5 ppm for spa or hot tubs). Maintain a pH reading of 7.2 to 7.6 for pools (7.2 - 7.8 for spas and hot tubs). Test your water daily and make necessary adjustments with appropriate pool chemicals.

Do not throw tablets directly into pool.

SHOCK TREAT

Shock your pool water every two weeks, and after a rain or at the first sight of green or cloudy water. Extremes in temperature, swimmer loads, wind and dust can cause bacteria, algae and debris to accumulate in the water and can require weekly shock treatment. For spas or hot tubs shock after each use.

BEST AVAILABLE COPY

(RAPID CHLOR TABS)

5 of 6

add 25 tablets of this product per 10,000 gallons of pool water (4 tablets for each 1000 gallons of spa or hot tub water) to bring chlorine level to a range of 10 ppm. Treat pool at night--do not allow swimmers to enter the water until chlorine level has dropped to 3 ppm for pools (4-5 ppm for spas and hot tubs).
