

U.S.D.A. Registration No. 6294-5

COMODANE NO. 2

ACTIVE INGREDIENTS:

Refined Petroleum Solvent
Technical Chlordane

98%

2%

TOTAL ACTIVE INGREDIENTS

100%

Equivalent to 1.2% Octachloro-1, 7-Methanotetrahydroindane and 0.8% related compounds.

DIRECTIONS

For use only on infested areas only. Do not spray at random into air.

SPECIFIC DIRECTIONS

COCKROACHES: Apply to areas of infestation, e.g., behind baseboards, behind cabinet doors, under sinks, etc. Repeat application after leaving the room. Repeat every 7-10 days for effective control.

ANTS: Apply to areas of infestation, e.g., door, counter tops, electrical outlet, etc. Repeat application after leaving the premises. Spray in point in ant hills.

SILVERFISH: Apply to areas of infestation, e.g., storage area, and avoid fish. Repeat application as necessary to maintain effective control.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Do not use if you are pregnant or nursing. If you experience symptoms of poisoning, such as dizziness, headache, nausea, or vomiting, seek medical attention immediately. Avoid contact with eyes, nose, mouth, and skin. Avoid inhalation. Do not use in areas where food is stored or prepared.
