"SLS"

20% CHLORDANE EMULSIFIABLE CONCENTRATE

ACTIVE INGREDIENTS:

TECHNICAL CHLORDANE	20%
REFINED PETROLEUM DISTILLATES	72%
INERT INGREDIENTS	8%

TOTAL 100%

*Equivalent to 12% Octachloro-1,7-Methanotetrahydrondane and 8% related compounds.

DIRECTIONS:

Do not use as a fog spray.

DILUTION: Dilute before use at rate of 1/2 oz. concentrate to make 1 gallon of Finished Spray (2 Emulsion).

ROACHES AND WATER BEGS: Use coarse spray of 1/2 Emulsion, thoroughly wetting all infested areas, cracks, pipe openings and known nesting places for roaches. Repeat treatment as needed.

ANTS: Paint or coarse spray of 1/2 Emulsion on curb and walls, along the back of shelves, window sills and door thresholds, and known ant trails. Coarse spray under kitchen sink and around garbage cans. Repeat treatment as needed.

SILVER FISH: Apply 1/2 Emulsion to walls, floors, and shelves of linen closets, around water pipes, under sinks, and to the under side of back cases. Repeat treatment as needed.

SPIDERS: Spray coarse Emulsion, out building, and away with a 2 Emulsion. Repeat treatment as needed.

CAUTION

KEEP OUT OF REACH OF CHILDREN

CAUTION: Chlordane is a dangerous chronic poison. Emulsions should not be used in dairy barns or in dwellings as fog sprays or for generalized residual treatment. Generalized residual applications may be made on pipe spray, may be used under normal or commercial conditions when suitable protective clothing and respiratory devices are worn. Do not use in any manner that may result in food contamination.

This product is toxic to fish. Keep out of lakes, streams and ponds.

CAUTION: Avoid breathing spray mist and skin contact. Harmful if swallowed. This solution if brought into contact with the skin can cause toxic symptoms. In case of accidental spillage on skin, wash immediately with soap and water. Avoid contamination of food and food-stuffs. Do not use on household pets or humans. Do not store, pour, or expose to an open flame or pilot light.
