**PHENOL COEFFICIENT NO. 8**

**For Use in Hotels, Motels, Schools, Public Institutions, Office Buildings  
and Industrial Plants.**

A Pine Odor Disinfectant Containing Pure Steam Distilled Pine Oil. Phenol Coefficient 8 Against S. Typhosa (A.O.A.C. Method). Forms milky white emulsion upon the addition of water.

**FOR GENERAL DISINFECTIVE AND CLEANING PURPOSES:**

160 parts of water to 1 part disinfectant. Never use boiling water, lukewarm water gives best results. This solution may be used to disinfect sickrooms and sickroom utensils, telephone mouthpiece, etc., for deodorizing outdoor closets and garbage receptacles, and for all everyday disinfectant applications.

**FLOORS**

For scrubbing floors (or mopping), use ½ cupful disinfectant to pail of water.

**URINALS AND TOILETS:** 3 ounces disinfectant to each gallon of water. Apply freely
