U.S.D.A. Registration No. 6294-11

COMET No. 88

QUARTERLY AMMONIUM

CONCENTRATED GERMICIDE

MUST BE DILUTED BEFORE USING

ACTIVE INGREDIENTS

n-Alkyl (C₁₄, C₁₂, C₁₆) Dimethyl Benzyl Ammonium Chlorides 10%

INERT INGREDIENTS: WATER 90%

TOTAL 100%

A cationic germicide containing a mixture of alkyl dimethyl benzyl ammonium chlorides with radicals ranging from C₁₂ to C₁₆, principally C₁₄.

Phenol Coefficient at 20 deg. C.

Micrococcus pyogenes var. aureus 75 Salmonella typhosa..... 50

(Net Contents 1 Gallon)

An odorless germicide, non-toxic in use dilutions. Outstanding bacteriostatic germicidal potency; a highly efficient sanitizing agent.

This germicide provides effective disinfection and sanitization of food handling equipment and eating and drinking utensils.

Highly effective in deodorization of malodorous areas and prevention of putrefactive decay.

Will not adversely affect utensils in use dilution.

For use in dairy, poultry, hatchery and meat processing plants as an effective sanitizer and cleaner.

DIRECTIONS: This is not a medicinal product. To be used only as a germicide. Do not use with soaps or synthetic detergents. All treated food handling equipment should be rinsed with potable water before use.

General Disinfection: First clean area with suitable cleaner thoroughly. Prepare solution of 1 oz. of germicide to 2 gallons of water. Apply to contaminated area by mopping or spraying.

Practice Good Sanitary Habits

GLASSES, DISHES, UTENSILS, SILVERWARE, GARBAGE PAILS, etc.: Clean thoroughly with suitable detergent, then dip in sanitizing rinse made of 1 oz. Quaternary Ammonium to 1 gallons of water. DO NOT USE A TOWEL- AIR DRY.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed.
Avoid contact with Skin and Eyes.

In case of contact flush with plenty of water.
Avoid contamination of food.
