## COMOCIDE 999 INSECT SPRAY

### Active Ingredients:

Petroleum Distillates	99.31%
Technical Piperonyl Butoxide*	0.50%
Pyrethrins	0.19%

\*Equivalent to 0.40% of (Butylcarbityl) (6-Propylpiperonyl) Ether and 0.10% of related compounds.

Comocide 999 Insect Spray is used to kill flies, mosquitoes, roaches, ants and moths.

### DIRECTIONS: To kill flies, mosquitoes and gnats —

Fill area with mist using hand or electric atomizer, using 2 to 3 oz. to each 1,000 cubic feet of space. Allow sprayed area to remain closed for 10 minutes. Repeat when necessary.

### To kill ants, roaches, water bugs, silverfish —

Thoroughly spray infested areas, working sprays into cracks and other hiding places. Spray ant trails and areas around door sills and window frames where the pests enter premises. Repeat application when necessary.

Use Comocide 999 as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

### CAUTION

Do not spray, store or pour near an open flame. Do not smoke while spraying. Harmful if swallowed.
