PERMA-GUARD HOUSEHOLD INSECTICIDE

D-20

*For control of: roaches, silverfish, ants, bedbugs,
house flies, fleas, box elder bugs, and crickets*

DIRECTIONS FOR USE

It is a violation of Federal and State Law to use this product in a manner inconsistent with its labeling.

PERMA-GUARD HOUSEHOLD INSECTICIDE is intended for application with hand duster or power duster, or other suitable means, to hiding and running areas, and places where pests are found. To apply **PERMA-GUARD HOUSEHOLD INSECTICIDE** into cracks and crevices, use a bulbous duster or other suitable equipment. Apply lightly and uniformly in treatment area. The amount to be applied will vary with the site, but should usually be 3 to 10oz./1,000 sq. ft. Repeat treatment as necessary to maintain adequate control.

ROACHES and SILVERFISH: Dust lightly, paying special attention to cracks and hidden surfaces, around pipes, sinks and moldings. **ANTS, CRICKETS and BOX ELDER BUGS:** Dust lightly areas around windows, doors and other places where pests may enter premises. **BEDBUGS:** Treat liberally baseboards, moldings, cracks, bedstead, and both sides of mattress. **FLEAS:** Lightly work the material into the hair of the animal, down to the skin. Use brush/comb to work material down to the skin. Pay strict attention to places where the animal cannot reach, such as the scalp. Dust the ears of the animal with care. Dust the animal's bedding and areas where the animal sleeps, as well as cracks and crevices adjacent to them. Repeat once a month or as necessary. Individual ticks observed on the animal should be dusted thoroughly. **HOUSE FLIES:** Lightly coat window frames and sills, so flies lightning will contact dust.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.
