**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Do not apply directly to food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Cover fish aquariums before dusting. Do not apply directly to lakes, streams, ponds, or public waters. Do not contaminate water by cleaning equipment or disposal of equipment washwastes. Apply this product only as specified on this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage - Store in a cool dry place, out of sunlight. Keep container closed.

Pesticide Disposal - Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal - Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration, if permitted by State and Local authorities.

WARRANTY STATEMENT

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment, will vary, seller makes no claims other than those stated on the label.

ACCEPTED

DISTRIBUTED BY:

APR 19 1993

For the Federal Insecticide, Fungicide, and Rodenticide Act, and for the pesticide laws of the States.

**PERMA-GUARD
PYRE-KILL
INSECTICIDE**
Multi-purpose Dust or W.P.
D-21

This material is effective for insect control on field crops, turf, lawn, (including Golf Courses) pastures, road medians, greenhouses, yards, gardens, parks, etc.

ACTIVE INGREDIENTS:

Pyrethrins	0.1%
Technical Piperonyl Butoxide*	1.0%
Diatomaceous Earth	88.5%
INERT INGREDIENTS	10.4%
Total	100.0%

* Equivalent to 0.8% OF (butylcarbayl) (6-propylpiperonyl) ether and 0.2% related compounds.

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING.** Vomiting may cause aspiration pneumonia.

If inhaled - Remove person to fresh air.

If on skin - Remove contaminated clothing and wash affected areas with soap and water.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PERMA-GUARD PYRE-KILL INSECTICIDE CAN BE USED ON OUTDOOR CROPS OR IN GREENHOUSES EVEN ON THE DAY OF HARVEST FOR THE INSECTS LISTED BELOW.

INSECTS: 12-Spotted Cucumber Beetle, Aphids, Army Worm, Asparagus Beetle, Blister Beetle, Boll Weevil, Bollworm, Cabbage Looper, Colorado Potato Beetle, Corn Earworm, Cross Striped Cabbage Worm, Cut Worms, Diamondback Caterpillar, Diamondback Moth Larvae, Fireworms, Flea Beetle, Green Peach Aphids, Harlequin Bug, Horn Worm Imported Cabbage Worm, Leaf Tier, Leafhoppers, Mexican Bean Beetle, Midges, Mole Cricket, Other Caterpillars, Pea Curculio, Peach Borer, Pecan Weevil, Range Caterpillar, Stink Bug, Webworm, Whitesfly

CROPS: Asparagus, Beans, Broccoli, Cabbage, Brussels Sprouts, Cauliflower, Celery, Corn, Cotton, Cranberries, Eggplants, Grains, Lettuce, Mustard Greens, Kale, Collards, Turnips, Pasture Grass, Peanuts, Pecans, Peas, Peppers, Potatoes, Peaches, Radishes, Soy Beans, Spinach, Tobacco, Ornamentals

DRY APPLICATION RATES: The goal is to get coverage over the entire plant, especially under the leaves. For young plants, as little as two pounds per acre may be sufficient. For larger plants, five lbs/acre is probably sufficient. With extra rank growth, it might be necessary to increase coverage. An examination of the leaves will tell if the leaf bottom is covered.

APPLICATOR: A good dust applicator is essential, and should be equipped with electronic nozzles, which put a negative charge on the dust. The plant being positive, attracts the dust making for a better coverage. The product may also be applied by a plane that has been equipped with an electronic nozzle on the spreader.

WET APPLICATION RATES: The same rates per acre apply when using PERMA-GUARD PYRE-KILL INSECTICIDE AS A WET-TABLE POWDER. Adding water is merely a means of using existing spray equipment.

MIXING INSTRUCTIONS

MINIMUM: 1 lb to 2 gals water.

MAXIMUM: 1 lb to 25 gals.

The purpose is to get a solution that will flow easily through the nozzle, and still put the recommended amount of product per acre. Again, it is essential to get coverage on the underside of the leaf.

GARDEN & YARD PLANTS: The same specs apply. Get coverage on top and bottom of leaf. Apply either wet or dry.

APPLICATORS: A variety of units are available, from small hand held units, to back packs: some capable of applying either wet or dry.
