OCT 12 1990

Mr. Wallace Tharp
Universal Diatoms Inc.
410 12th NW
Albuquerque, NM 87102

Dear Mr. Tharp:

Subject: Amendment - Label Revisions/Confidential Statement of
Formula/Material Safety Data Sheets
Perma-Guard Household Insecticide D-20
EPA Registration No. 6330-1
Perma-Guard Garden and Plant Insecticide D-21
EPA Registration No. 6330-9
Perma-Guard Pet and Animal Insecticide D-20
EPA Registration No. 6330-32
Your Letter Dated April 23, 1990

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. The words **ACTIVE INGREDIENTS** and **INERT INGREDIENTS** must be printed in type of the same size and be given equal prominence.
2. Based on the current Confidential Statement of Formulas (CSFs) dated July 18, 1989 for the subject products will not meet the label claim for the active ingredients, diatomaceous earth. As stated in our letter, dated February 28, 1990, the lower limit of the active ingredient (column 14b) must be the same as the label claim. The purity of diatomaceous earth (EPA Reg. No. 59910-1) has been reevaluated to be 100% pure active. Therefore the percentage of diatomaceous earth should be $100\% \times 87.9 = 87.9\%$ or 88% for EPA Reg. No. 6330-1 and EPA Reg. No. 6330-32 and $100\% \times 88.5\% = 88.5\%$ for EPA Reg. No. 6330-9 as it appears on the label claim. Please revise the CSFs to agree with the label claim.

LGA

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager 15
Insecticide-Rodenticide Branch
Registration Division (H7505C)
