

**DANGER**  
**KEEP OUT OF REACH OF CHILDREN.** Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Harmful or fatal if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

**FIRST AID.** In case of contact, immediately flush eyes or skin with running water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

**NOTE TO PHYSICIAN.** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**FISH AND/OR WILDLIFE PRECAUTIONS.**

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the environmental protection agency.

**STORAGE AND DISPOSAL**

1. **PROHIBITIONS**  
Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.
2. **PESTICIDE DISPOSAL**  
Pesticide, spray mixture, or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.
3. **CONTAINER DISPOSAL**  
(a) Reseal container and offer for reconditioning, or  
(b) Triple rinse (or equivalent) and: offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place.
4. **GENERAL**  
Consult federal, state or local disposal authorities for approved alternative procedures.

## **DIRECTIONS FOR USE GENERAL CLASSIFICATION**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**INITIAL DOSE:** One gallon of SPARKLE to 50,000 gallons of water.

**MAINTENANCE DOSE:** One quart of SPARKLE to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add one quart of SPARKLE for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add one gallon of SPARKLE to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When SPARKLE is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium undatum* (black), *Phormidium retzii* (square D), *Lyngbya venicolor* (blue-green) and other swimming pool algae.

SPARKLE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. SPARKLE works best when added by itself directly to pool water. SPARKLE at use dilution is non-corrosive to inanimate surfaces.

**WARRANTY.** Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials. Statements concerning the use of this product are not to be construed as recommending the infringement of any patent, and no liability for infringement arising out of such use is assumed.
