**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean critical or semi-critical medical devices prior to sterilization or high level disinfection.

For disinfecting while cleaning, keep surfaces wetted with solution as recommended for at least 10 minutes. For general cleaning and disinfecting, use 1 1/4 ounces per gallon of water (100 to 1 dilution). Remove gross fifth and heavy soil deposits from surfaces prior to application of the recommended solution. In hospitals and where Pseudomonas organisms are suspected, use 2 1/2 ounces per gallon of water. Tuberculocidal against Mycobacterium Tuberculosis Var. Bovis at a dilution of 1 1/2 ounces per gallon of water. \*Virucidal against herpes simplex virus at a dilution of 2 1/2 ounces per gallon of water. Effective against pathogenic fungi at a dilution of 2 1/2 ounces per gallon.

-----  
[storage and disposal for 2 gallons and larger]:

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.  
**STORAGE: KEEP CONTAINER CLOSED.** Store in a cool, dry area away from heat or open flame.
