

U.S.D.A. Reg. No. 6383-1

FERRET

RODENTICIDE
Net Weight One Pound
KILLS RATS AND MICE
EFFICIENT - POWERFUL - ANYWHERE - READY TO USE

ACTIVE INGREDIENTS
WARFARIN 0.025%
3-(*o*-acetyl-*o*-benzyl-4-hydroxycoumarinyl)-4-hydroxy-5-(3-oxo-1,2,3,4-tetrahydro-2H-pyridin-2-yl)-1,2,4-triazole-6-thione 99.975%
INERT INGREDIENTS 100.000%
Total 100.000%

DIRECTIONS

For continuous control, hide a few packages of **FERRET** to a station. **FERRET** will not spoil if kept dry. Unused **FERRET** will be accepted by rodents several months later or you can put it some other place after the kill.

Entrance and exit should be big enough (1/2 inches) for a rat but not for a bigger animal.

FERRET should never be put out in the open. Hide behind a board against a wall. Don't use metal.

To achieve complete rat control you must put out enough **FERRET** for the whole infestation at first baiting. It may take from 12 lbs. to 50 lbs. depending on how large an infestation. Unused **FERRET** will not spoil if kept dry. If bait gets sour, moldy, or otherwise deteriorates because it was put out improperly, it should be replaced promptly.

U.S. Patent #3,084,805 issued June 25, 1963

CAUTION: Keep out of reach of children.

THE SURE WAY TO KILL RATS AND MICE

FERRET takes advantage of the rats' thieving instinct. LET THEM STEAL THEIR OWN POISON.

GUARANTEED TO WORK EVERYWHERE — EVEN WHERE BEST FEEDS ARE STORED

IMPORTANT - FOR BEST RESULTS DO NOT TOUCH OR REMOVE THE SMALL CELLOPHANE BAGS ENCLOSED. SIMPLY OPEN OUTER PACKAGE AND HIDE AS PICTURED AND DIRECTED ON LABEL. THE RATS AND MICE WILL DO THE REST.

THE SURE WAY TO KILL RATS AND MICE

FERRET takes advantage of the rats' thieving instinct. LET THEM STEAL THEIR OWN POISON.

GUARANTEED TO WORK EVERYWHERE — EVEN WHERE BEST FEEDS ARE STORED

IMPORTANT - FOR BEST RESULTS DO NOT TOUCH OR REMOVE THE SMALL CELLOPHANE BAGS ENCLOSED. SIMPLY OPEN OUTER PACKAGE AND HIDE AS PICTURED AND DIRECTED ON LABEL. THE RATS AND MICE WILL DO THE REST.

To achieve complete rat control put out triple what you deem necessary to reach the whole infestation. There are usually nine rats in hiding for every one you see.

		RETAIL PRICES	A SAVING OF
Full Case	24-1 lb. pkgs.	\$28.00	\$8.00
1/2 Case	12-1 lb. pkgs.	14.50	3.50
1/4 Case	6-1 lb. pkgs.	7.50	1.50
	3-1 lb. pkgs.	4.00	.50
	1 lb.	1.50	

CAUTION

FERRET contains, as its active ingredient, an anti-coagulant chemical which, if taken by humans or pets, may reduce the clotting ability of the blood and serious hemorrhage may result. HIDE COVER and place this package of **FERRET** where it will not be accessible to children, pets, and domestic animals. Should **FERRET** be eaten, give a tablespoon of salt in a glass of warm water, and repeat until vomit fluid is clear. Call a physician immediately.

NOTE TO PHYSICIANS

When **FERRET** is known to have been ingested, blood transfusions combined with intravenous injection and oral doses of Vitamin K are indicated, as in the case of hemorrhage caused by overdose of Dicumarol.

BAITING SHOULD CONTINUE FOR FIVE TO FOURTEEN DAYS OR UNTIL COMPLETE LACK OF FEEDING IS NOTED—EVEN THEN BAIT STATIONS SHOULD BE MAINTAINED TO HELP PROTECT PREMISES FROM ROVING RODENTS.

IMPORTANT NOTICE TO DEALERS AND USERS

We do not recommend handling or transferring contents of package. The bag contains 4 individual cellophane bags for the purpose of control in treatment and to facilitate control carrying small bags into the set. Do not sell or transfer into individual cellophane bags.

CONTINUOUS UNINTERRUPTED FEEDING IS NECESSARY.

MICE ARE MORE DIFFICULT TO CONTROL THAN RATS. BAIT PLACEMENT SHOULD BE AT 8-12 FOOT INTERVALS.

NEVER TOUCH THE CONTENTS OF THIS PACKAGE OF FERRET WITH THE HANDS.

HIDING FERRET SO FEEDING IS NOT IN THE OPEN, IS AN IMPORTANT PART OF EFFECTIVE CONTROL.
