

FOR RATS — USE AS FOLLOWS

1. Place $\frac{1}{2}$ to 1 pound per station.
2. Bait stations should be placed in places inaccessible to children or pets or in tamper proof boxes. Keep away from children and pets.
3. An uninterrupted supply of bait should be maintained for at least 10 days.

FOR MICE:

1. Place 2 to 4 ounces of bait per station.
2. Bait stations should not be more than 12 feet apart; 6 to 10 feet will be more effective.
3. An uninterrupted supply of bait should be maintained for at least 10 days.

GENERAL DIRECTIONS

1. Place baits in locations where rats and mice feed, water or travel.
2. Bait placements along walls, in corners, and in concealed locations where rats and mice can feed unobserved are desirable.
3. Contaminated or spoiled baits should be replaced immediately.
4. Baiting should continue until all signs of feeding have stopped.

WARNING:

KEEP OUT OF REACH OF CHILDREN

Keep away from humans, pets and domestic animals. If swallowed by humans, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In such cases, the intravenous and oral administration of Vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin. CALL A PHYSICIAN IMMEDIATELY.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and/or handling of this material when such use and/or handling is contrary to label information.
