

GREEN CROSS
MCPP HERBICIDE
FOR CONTROL OF CHICKWEED AND OTHER BROADLEAFS IN GOLF GREENS, FAIRWAYS AND LAWNS

DIRECTIONS FOR USE:

Green Cross MCPP Herbicide will not injure bent grasses, established lawns or turf grasses when used as directed. Controls chickweed, clover, plantain, black medick and knotweed in turf grasses. apply when weeds are young and growing vigorously. Do not apply to bent grasses in the heat of summer. Do not mow for several days before or after treatment. Do not water for one day following treatment.

ESTABLISHED GRASSES (Fairways and Lawns)

Apply 1 to 1½ fluid ounces per 1000 sq. ft. in 2½ gallons of water (2½ to 3¾ pints in at least 25 gallons of water per acre.) Do not spray during long dry spells.

NOTE: If dandelions are a problem add 2,4-D at the usual rate except on bent grasses where the rate of 2,4-D should not exceed 4 oz. acid equivalent per acre.

ESTABLISHED GREENS:

Apply 1 fl. oz per 1000 sq. ft. in 2½ gallons of water (2½ pints in at least 25 gallons of water per acre) for control of chickweeds, black medick, clover, knotweed and plantains.

WARNING:

KEEP OUT OF REACH OF CHILDREN. Keep in original container during storage. Destroy empty container. Do not allow spray, spray mist, visible or invisible vapors, or air containing mist or vapors to contact plants other than those being sprayed. If 2,4-D or MCPP susceptible plants are growing within a distance of ¼ mile from the area being sprayed, spray only when there is a light breeze away from the susceptible plants. Spray drifting can be reduced by using high volume sprays under low pressure, coarse sprays and drop nozzles. Susceptible crops include grapes, tomatoes, tobacco, sugar beets, sunflowers, beans, cauliflowers and cabbages, as well as many other field, vegetable, ornamental and fruit crops. Do not contaminate streams, lakes, ponds, irrigation water, water used for livestock or domestic purposes. Do not store open container near seeds, feeds, fertilizers or pesticides including insecticides, fungicides and weed killers other than those containing 2,4-D or brushkillers. Sprayers which have contained MCPP should not be used to apply other pesticides to 2,4-D or MCPP susceptible crops. Avoid contact with skin, eyes and clothing. Wash hands after use.

ACTIVE INGREDIENTS:

Potassium salt of 2-(4-chloro-2-methylphenoxy) propionic acid 46.3%
(MCPP - 2-(4-chloro-2-methylphenoxy) propionic acid equivalent 39.3%)
Inert ingredients 53.7%

NON-WARRANTY: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
