LONE STAR CHINCH BUG CONTROL

CONTAINS **SEVIN**
Plus **LAWN FOOD**

DIRECTIONS

WHEN TO APPLY:

Apply at first sign of insect damage (normally mid-June to mid-July). The spring flights of chinch bugs may occur on sunny days when the temperature is above 70° F., there are two or more generations per year.

HOW TO APPLY:

Spread the contents of this bag evenly on 50 sq. ft. of lawn area. After application, water lawn thoroughly. For best results, treat entire lawn. To prevent reinfestation, repeat treatment in 3 to 4 weeks.

TO REDUCE INSECT INJURY:

LONE STAR CHINCH BUG CONTROL is a chinch bug insecticide fertilizer that will aid in producing a thick, green lawn with reduced injury from insects. After treatment, water lawn at intervals with **LONE STAR GRASS AND TURF FOOD**. Frequent watering is necessary. If unusual growth persists, soil test to determine cause.

USE ONLY AS DIRECTED. READ ENTIRE LABEL.

CAUTION

KEEP OUT OF REACH OF CHILDREN AND ANIMALS
HARMFUL IF INHALED OR SWALLOWED

Avoid prolonged or repeated breathing of dust.

Wear a dust mask when working with this product.
