

**WASHING:** cotton, linen, rayon, acrylic (Orlon), acetate (Chromspun), nylon, polyester (Dacron), modacrylic (Dynel), triacetate (Arnel) and blends of these fibers. **PERMANENT PRESS** fabrics, both white and colorfast, are bleachable.

**REMOVE STAINS:** chocolate, fruit, coffee, grass, blood, scorch, mildew; many ink and medicine stains.

**WHITEN:** yellowed or greyed nylon, Dacron or Orlon.

**DIAPERS,** baby clothes, sickroom linens, etc. To disinfect, deodorize, remove stains.

**DISINFECTANT** for sickroom, nursery, kitchen, bathroom. Floors, tile, porcelain, plastic, rubber. Also toys, dishes, utensils, bedpans.

**DRAIN PIPES:** To deodorize. **CAUTION:** Do not use with drain openers, lye, or other chemicals).

**TOILETS & FLOODED BASEMENTS:** To disinfect & deodorize.

**KILLING ATHLETE'S FOOT FUNGI:** Also, bath for perspiring feet.

#### TO PURIFY DRINKING WATER

**WADING POOLS:** To help keep wading pools safe, many public health departments advise adding chlorine solution before and during use.

**BATH FOR DOGS AND CATS:** To deodorize, cleanse

Harmful if swallowed. Avoid contact with skin and eyes. Skin and eye contact may cause severe irritation.

If Linco is taken internally, feed milk or cooked cereal, followed by cooking oil. Call doctor. For irritation to skin or eyes, flood with cold water at once.

Automatic or Regular; agitator-type 1 cup per load; tumbler, 1/2 cup.

2 tbs. in quart of water.

2 tbs. or 1/8 cup Linco Bleach to 1 gal. fairly warm water.

For pre-soak use 1 tbs. in gallon water.

3 tbs. Linco Bleach per quart warm water.

1 cup of Linco per gallon of hot water.

1 cup of Linco bleach per gallon of water.

2 tbs. to each quart warm water.

10 drops per gallon.

1 fl. oz. (2 tbs.) of Linco per 100 gals. of water initially in wading pools.

1/2 cup per gal. water.

is not affected by regular home and farm use of Linco Bleach.

**RINSE EMPTY CONTAINER THOROUGHLY WITH WATER BEFORE DISCARDING.**

Add Linco Bleach to pre-soak, wash cycle or first rinse. If added after clothes are in washer, dilute in qt. water before adding. Rinse.

Immerse in Linco Bleach solution 5 to 15 min. Rinse well. Scorch, mildew dry in sun.

Immerse clean fabric 15 to 30 min. in Linco Bleach solution. Rinse well. Repeat if needed.

Flush off soil, pre-soak. Wash in machine as above. To disinfect, add Linco Bleach to first rinse.

After cleansing, immerse (or keep wet) in solution 5 min. Rinse. Use also for fruit jars, lunch boxes, thermos, garbage cans. (Do not use on silverware).

Pour hot water into drain—add Linco full strength.

For toilets: swish Linco Bleach on surfaces and let stand 1 hour. For flooded basements: scrub, then disinfect with 1 cup of Linco in gallon of water.

Mix well. Soak feet 5 min., remove loose skin; soak 15 min., dry. Also use same solution for scrubbing shower room floors, bathmats, and other surfaces commonly contacted by bare feet.

Mix well in water. Let stand 5 min. before using.

Change pool water often. Prepare Linco Bleach solution by diluting each oz. required in qt. water. Add solution to pool before use.

Mix well in bath solution. Rinse in clear water.

#### Disinfection, Algae Control

For newly filled private pools without chlorinating devices. Add 10 oz. (1/4 cup) Linco per each 1000 gallons of water. Add 2 1/2 fluid ounces of product per 1000 gallons of water periodically as needed to maintain 0.6 to 1.0 PPM chlorine residual as determined by the use of a chlorine test kit. Every 1-2 weeks, a super chlorination dosage of 10 fluid ounces of Linco per 1000 gallons should be applied to control growth of algae.
