VITAMIN GUARANTEE

Vitamin A	50,000 USP Units Per Lb.
Vitamin D-3	10,000 USP Units Per Lb.

FEED INGREDIENTS

Soybean Meal, Urea, Salt, Vitamin A Acetate, Irradiated Animal Sterol (Source of Vitamin D-3), Hominy, Cane Molasses, Ground Wheat Screenings, Dicalcium Phosphate, DeFluorinated Rock Phosphate.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

CAUTION

Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water for 15 minutes. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Feed KAY DEE RABON CATTLE SUPPLE-MENT to feeder cattle, weighing 400 to 1100 lbs., at the rate of 1 pound per head per day. KAY DEE RABON CATTLE SUPPLEMENT is to be blended into the total ration. Start feeding early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall, until cold weather restricts fly activity.

KAY DEE RABON CATTLE SUPPLEMENT may be fed up to slaughter.

KAY DEE RABON CATTLE SUPPLEMENT prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around cattle lots and

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Feed KAY DEE RABON CATTLE SUPPLE-MENT to feeder cattle, weighing 400 to 1100 lbs., at the rate of 1 pound per head per day. KAY DEE RABON CATTLE SUPPLEMENT is to be blended into the total ration. Start feeding early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall, until cold weather restricts fly activity.

KAY DEE RABON CATTLE SUPPLEMENT may be fed up to slaughter.

KAY DEE RABON CATTLE SUPPLEMENT prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around cattle lots and buildings to control adult house flies and stable flies which can breed not only in cattle manure but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, KAY DEE RABON CATTLE SUPPLEMENT should be used in conjunction with other good management and sanitation practices.

STORAGE AND DISPOSAL

Co not centaminate water or food by storage or disposal. Open dumping is prohibited. Dispose of in an incinerator or landfill approved for pesticide containers, or bury in a safe place.
